Wigglesworth, J. 521
wildlife
Cambodia 537, 552–4, 555, 561
commercial production/use 277–9, 282–4, 285–6, 554
medicinal uses 555
see also black rhinoceros valuation study; conservation, endangered species/wildlife; ecotourism study (giant panda reserves, China); game parks valuation study, South Africa
willingness to accept (WTA), land use changes 362–3, 366–8, 371, 481–2
willingness to pay (WTP)
and age 15
analytical models 121–2, 291–2
average values, calculation of 58–9, 137, 139, 214, 220, 292–3, 303–4
averting expenditure, as measure 138, 139
choice (question) formats 51, 121
distributions of values 58–9, 219–20, 291–2, 303–4
‘embedding phenomenon’ 93–4, 95–7, 112, 180
global 3–4, 352, 499
income elasticity of 20–21
as measure of value, usefulness 26
methodological issues 476
payment vehicles 46, 48, 70, 295
protest votes 51, 94, 95, 96
and question order 56–7
reliability tests 107, 302
and risk 13–14, 20–21
substitution effects 48–50, 299
validity tests 97–9
‘yea-saying’ 105, 303–4
see also contingent valuation method (CVM); discrete-choice (DC) format (contingent valuation method, CVM);
entries in specific studies;
random utility model (RUM)
