

Tables

3.1	China: sectoral contributions to labour absorption, 1980–97	37
4.1	Comparative (5-year average) domestic savings rate, 1960–94	44
4.2	Comparative structure of domestic savings, 1976–96	46
4.3	Average propensity to save of rural and urban areas, 1981–95	52
4.4	Net foreign borrowing, 1978–95 (% of GDP)	58
5.1	Description of sample composition for four industries	73
5.2	Descriptive statistics for inputs and output	74
5.3	VRS production frontier function estimation results	76
5.4	Efficiency rate for four industries	78
5.5	Cumulative efficiency change for four industries	78
5.6	Technical change for four industries	79
5.7	Building materials industry	80
5.8	Chemicals industry	80
5.9	Machinery industry	81
5.10	Textiles industry	81
5.11	TFP growth grouped by scale, location and managerial forms	83
6.1	Gross value of output, gross value added and labour productivity in national currencies, and employment, by manufacturing branch, 1987	92
6.2	Unit value ratios (PPPs) and price levels by major manufacturing branch, 1987	95
6.3	Gross value added by major manufacturing branch at Chinese and US producer prices, 1987	97
6.4	Comparative labour productivity (GVA per employed) by major manufacturing branch at Chinese and US producer prices, 1987	98
6.5	Comparative performance of Chinese and US manufacturing: gross value added per employed person in 1987 production PPPs by major branch, 1952–97	100
7.1	Share structure of listed companies on the Shanghai and Shenzhen stock exchanges	109
7.2	OLS regressions of earnings per share (EPS)	112
7.3	OLS regressions of return on equity (ROE)	113

7.4	Summary descriptive statistics of compensation for chairmen and CEOs	117
7.5	OLS regressions of log of CEOs' total emolument	120
7.6	OLS regressions of log of CEOs' cash emolument (salary and bonus)	121
8.1	Overdue debt of sample enterprises in four provinces	127
8.2	Distribution of sample enterprises grouped by overdue debt rate	127
8.3	Distribution of enterprises by type of overdue debt	128
8.4	Frequency of NPD grouped by overdue debt rates, 1995	128
8.5	Overdue debt rates of enterprises grouped by type of overdue debts	129
8.6	Structure of NPD of sample enterprises, 1995	129
8.7	Liability–asset ratio for sample enterprises	130
8.8	NPD rates of sample enterprises grouped by liability–asset ratio	131
8.9	Reasons why enterprises held too-high liability ratios	132
8.10	Factors determining profitability of sample enterprises	133
8.11	Factors determining the appropriate liability ratio of sample enterprises	134
8.12	Debt rate and NPD rate of profitable and unprofitable enterprises	135
8.13	Help that enterprises have had from banks in repaying loans	136
8.14	Choices of method used by enterprises in difficulties with loan repayments	136
8.15	Priority for using funds when capital is insufficient	137
9.1	Export similarity index between Japan and other East Asian economies, 1965–96	150
9.2	Export similarity index between China and other East Asian economies, 1965–96	155
9.3	Export similarity index between China and other East Asian economies in the US market, 1965–96	157
9.4	Export similarity index between China and other East Asian economies in the world textiles and clothing market, 1980–96	159
9.5	Export similarity index between China and other East Asian economies in the US textiles and clothing market, 1971–96	162
10.1	Discrepancies in bilateral trade statistics, 1996	173
10.2	Foreign direct investment and imports	177
10.3	Short-run dynamics: imports	181
12.1	Decomposition of agricultural and non-agricultural labour, 1952–96	210
12.2	Sources of GDP growth: factor growth, TRE and TFP	215

12.3	Aggregate and sectoral real returns to labour and capital, 1952–95	217
12.4	Simulation results for some macro indicators	222
12.5	Employment structural changes and off-farm migration, 1997–2010	223
13.1	GDP and grain production statistics for the three provinces under investigation	233
13.2	Estimation results for marketed surplus functions at the national and provincial levels	235
14.1	Projected food self-sufficiency rates in 2010, compared to 1995	245
14.2	Changes in domestic consumption, prices and production in China as a result of a US grain export embargo, 2010	248
14.3	Changes in domestic consumption, prices and production in China as a result of a US food export embargo, 2010	249
14.4	Changes in China's grain imports by source following a US grain embargo, 2010	249
14.5	The impact of US-led Western embargoes against China, 2010	250
14.6	Welfare effects of food embargoes against China	252
14.7	Changes in grain production following embargoes, 2010	253
15.1	Summary of selected studies on regional disparities in China	262
15.2	Estimates of Gini coefficient by selected authors	265
15.3	Ranking of Chinese regions in selected years	268
15.4	Indicators of regional disparities in selected countries	273
15.5	Estimation results of beta convergence	275
15.6	Beta convergence estimates in this and other studies	275
15.7	Beta convergence among the regions	276
16.1	Change in the heights of 7-year-old Chinese boys	294
16.2	Change in the heights of 7-year-old Chinese girls	295
16.3	Change in the heights of 17-year-old Chinese boys	296
16.4	Change in the heights of 17-year-old Chinese girls	297
16.5	Body mass index of 7-year-old Chinese children, 1995, and change 1979–95	298
16.6	Body mass index of 17-year-old Chinese children, 1995, and change 1979–95	299
17.1	China: socioeconomic assumptions and energy pathways, 1990–2020	308
17.2	China: sulphur emissions and ambient concentrations, 1990–2020	310
17.3	China: health impact of local air pollution, PM _{2.5} 1995	311
17.4	China: estimates of carbon emission damage, at 1990 prices	313

17.5	China: control costs and emission reduction in abatement scenarios, 2020	317
17.6	China: benefit/cost comparisons between abatement scenarios, 2020	318
17.7	China: welfare changes of a 5 per cent energy input-augmenting technical change	320
