Tables

3.1 Budget allocation
3.2 Allocation of RJVs in technical areas based on their starting date
3.3 Distribution of firms in RJVs
3.4 Allocation of funding in different technological areas
3.5 Participation in EU RJVs
3.6 Membership frequency
3.7 Most active organizations
3.8 Most active firms
3.9 Membership ‘concentration’
3.10 Sectoral distribution of the identified firms
3.11 Participation in EUREKA RJVs
3.12 Membership frequency
3.13 Most active organizations in the examined EUREKA RJVs
3.14 Number of firms per country
3.15 Membership concentration by country
4.1 Survey results
4.2 Mapping of the dataset
4.3 Financial and corporate identity of surveyed firms
4.4 Sectoral profile of surveyed firms
4.5 Areas of the cooperative activity
4.6 Protection and exploitation of the results
4.7 Importance of public funding
4.8 Corporate strategy
4.9 Competitive strategy
4.10 Business environment
4.11 Activities related to technology development
4.12 Processes of acquiring and/or creating new knowledge
4.13 Cooperation with other organizations
4.14 Objectives of cooperative R&D
4.15 Firm areas of activity and objectives from cooperative R&D
4.16 Benefits from cooperative R&D
4.17 Company areas of activity and benefits from cooperative R&D
4.18 Problems with cooperation
4.19 Objectives of R&D cooperation
4.20 Benefits from R&D cooperation
5.1 Evolution of R&D cooperation: enabling factors and constraints
5.2 Support to research entrepreneurship
8.1 The Framework Programmes: dates, legal basis and main rationale
8.2 Changing priorities between EU Research Areas
8.3 Intellectual property rights in sixth Framework Programme RJs
9.1 Departmental/Research Council expenditure on LINK programmes
10.1 Degree of concentration of private R&D
10.2 Origin of funds for the private sector
10.3 Evolution of public funds allocated to the private sector
10.4 Priorities of the civil R&D budget
11.1 Gross expenditure in R&D
11.2 GERD as a percentage of GDP
11.3 Business expenditure in R&D, as a percentage of GDP
11.4 Patent applications for some EU countries
11.5 Technological balance of payments – coverage ratio
11.6 Technological classes that Italy specializes in
11.7 Characteristics of innovation activity in Italy (1990–1992) per employee
11.8 Cooperation among firms and other institutions
11.9 Innovative firms size in high tech sectors
12.1 Main science and technology indicators: Spain and the EU
12.2 R&D in the Spanish enterprise sector – selected indicators
12.3 Distribution of public funds by size and firm ownership (1992)
12.4 The Fourth National Plan: main quantitative targets (projections)
12.5 Budget of the National Plans
12.6 Distribution of expenditures by types of activities and by scientific areas
12.7 Distribution of coordinated and cooperative projects by areas
12.8 Distribution of coordinated and cooperative projects by firms’ size
12.9 Budget of ATYCA projects
14.1 Policies towards cooperative R&D
