Tables

2.1 Neoclassical and evolutionary approaches to technology development 36
2.2 Framework for MSTP 41
2.3 Differing industrial visions and strategies in the Asian NIEs 43
2.4 Examples of horizontal technology policies 46
2.5 Examples of vertical technology policies 47
2.6 Salient features of levels 2 and 3 48
3.1 Industrial response with different capabilities and nature of liberalization 77
4.1 Technological classification of exports 92
4.2 Growth rates and market shares of exports 96
4.3 Manufactured exports by technological sub-categories 98
4.4 Regional shares of developing countries’ manufactured exports 102
4.5 Distribution of manufactured exports over technological categories, 1985 and 1998 106
4.6 RCAs by technological categories in developing regions, 1985 and 1998 107
4.7 Correlation of RCAs between 1985 and 1998 111
4A.1 Technological classification of exports 122
4A.2 Leading 13 exporters of manufactured products in the developing world, 1985 and 1998 124
4A.3 Leading exporters of manufactures in 1998, values of exports in 1985 and 1998 125
5.1 Enrolment ratios 142
5.2 Grade 8 TIMSS assessment, 1994–95 144
5.3 Tertiary level enrolments and enrolments in technical subjects, 1995 145
5.4 Change in tertiary technical enrolments, 1980–95 as a percentage of population 147
5.5 HMI ranks, 1995 and 1957–58 148

Competitiveness, technology and skills

5.6 Correlation coefficients of income and three skill measures 149
5.7 Training in developing countries and productivity gains 151
5.8 Incidence of enterprise training in some developing countries 153
5.9 Main types of training systems 163
5A.1 World market shares of leading 30 exporters of high-technology products 170
5A.3 Tertiary enrolments in total and in technical subjects, 1995 177
5A.4 Skill indices, 1995 183
6.1 FDI inflows, 1986–97 191
6.2 Leading 10 recipients of FDI 192
6.3 R&D propensities and manpower in major country groups 196
6.4 Technological effort in major developing countries 197
6.5 Tertiary level enrolments, total and in technical subjects 199
6.6 Leading US R&D spenders, 1994 202
6.7 Share of US patents of world’s largest firms attributable to research in foreign locations, 1969–95 204
6.8 R&D by affiliates of US MNCs, 1994 224
6A.1 Fifty fastest growing manufactures in world trade 255
6A.2 Top 25 developing country exporters, ranked by per capita exports, 1995 258
7.1 Exports from selected Asian countries, 1994 275
7.2 Technological basis of competitive advantage 276
7.3 Distribution of manufactured exports by technological categories 277
7.4 Inward foreign direct investment 281
7.5 Educational enrolments and literacy rates 284
7.6 Tertiary level students in technical fields 286
7.7 Research and development expenditures 288
7.8 Scientists, engineers and technicians in R&D 289
7A.1 Industries classified by technology 307
7A.2 Rates of manufacturing growth in Tigers 308
8.1 Annual growth rates of manufactured exports 311
8.2 Manufactured exports by India and comparators, 1980–96 312
8.3 Evolution of world manufactured exports by technological categories 319
8.4 Growth rates and shares of manufactured exports by technological categories, 1980–96 320
8.5 Technological structure of exports 321
8.6 Values and growth rates of exports by technological categories 322
8.7 Largest 30 manufactured exports by India 324
