2.1	The direction of state-owned bank loans	9
2.2	The market share of state-owned banks	10
2.3	The institutional structure of China's financial system	11
2.4	Financial depth in China	12
2.5	Real interest rates in China, 1978–2000 (%)	13
2.6	Effective return on three-year time savings deposits, 1988–89 (%)	14
2.7	Government involvement in the credit allocation decisions of China's financial sector	18
2.8	An overall financial repression index for China, 1978–99	21
2.9	Eigenvalues and eigenvectors of the correlation matrix of financial repression variables	21
2.10	ADL (2, 2, 1, 1, 0) model results, dependent variable: FD	29
2.11	ADL (2, 2, 1, 1, 0) model ECM results, dependent variable: $\Delta$ FD	30
3.1	Profitability of industrial enterprises in China, 1980–97, by ownership type (%)	33
3.2	The share of total state-owned bank loans allocated to state-owned industrial enterprises	34
3.3	Productivity data for China's state-owned industrial enterprises, 1980–97	37
3.4	Partial factor productivity in China's state-owned industrial enterprises, 1980–97	38
3.5	Total factor productivity in China's state-owned industrial enterprises, 1980–97	39
3.6	Total price performance in China's state-owned industrial enterprises, 1980–97	41
4.1	ADL (2, 2, 2, 0, 1) model results, dependent variable: GDP	52
4.2	ADL (2, 2, 2, 0, 1) model ECM results, dependent variable: $\Delta$ GDP	53
4.3	State-owned bank loans for fixed assets (% of total fixed asset investment)	57
4.4	Estimates of solvency in state-owned banks	60
5.1	The development of non-bank financial institutions in China	64
5.2	Summary rural credit cooperative data	65

5.3	Summary urban credit cooperative data	66
5.4	Summary trust and investment company data	68
5.5	Non-state sector rural savings mobilization	72
5.6	Lending to the rural non-state sector	74
5.7	Lending to the urban non-state sector	74
6.1	Initial stages of stock market development in China	81
6.2	The development of national stock markets in China	85
6.3	Savings mobilized via stock markets, other domestic securities and financial institutions	86
6.4	Model results: dependent variable: MC	87
6.5	Stock market volatility in China: a comparative perspective	96
7.1	Foreign direct investment in China	100
7.2	Foreign loans in China	102
7.3	The value and maturity of foreign commercial loans	104
7.4	Foreign portfolio investment in China	106
7.5	Domestic and overseas share listings: raised capital	107
7.6	China's investment abroad	108
7.7	Capital flight from China	110
7.8	Official and estimated equilibrium exchange rates in China (RMB/\$US)	112
7.9	Controls on capital transactions, 2000	113
7.10	Data and estimates of China's optimal foreign borrowing	115
7.11	The sustainability of China's foreign debt	120
A1	Financial depth modeling data	133
A2	Derivation of DGV (billion yuan, 1990 prices)	134
A3	Derivation of DNPF (billion yuan, 1990 prices)	135
A4	Derivation of DINT (billion yuan, 1990 prices)	136
A5	Derivation of LAB (million workers)	137
A6	Investment productivity modeling data	138
