Tables

2.1 The direction of state-owned bank loans 9
2.2 The market share of state-owned banks 10
2.3 The institutional structure of China’s financial system 11
2.4 Financial depth in China 12
2.5 Real interest rates in China, 1978–2000 (%) 13
2.6 Effective return on three-year time savings deposits, 1988–89 (%) 14
2.7 Government involvement in the credit allocation decisions of China’s financial sector 18
2.8 An overall financial repression index for China, 1978–99 21
2.9 Eigenvalues and eigenvectors of the correlation matrix of financial repression variables 21
2.10 ADL (2, 2, 1, 1, 0) model results, dependent variable: FD 29
2.11 ADL (2, 2, 1, 1, 0) model ECM results, dependent variable: ΔFD 30
3.1 Profitability of industrial enterprises in China, 1980–97, by ownership type (%) 33
3.2 The share of total state-owned bank loans allocated to state-owned industrial enterprises 34
3.3 Productivity data for China’s state-owned industrial enterprises, 1980–97 37
3.4 Partial factor productivity in China’s state-owned industrial enterprises, 1980–97 38
3.5 Total factor productivity in China’s state-owned industrial enterprises, 1980–97 39
3.6 Total price performance in China’s state-owned industrial enterprises, 1980–97 41
4.1 ADL (2, 2, 2, 0, 1) model results, dependent variable: GDP 52
4.2 ADL (2, 2, 2, 0, 1) model ECM results, dependent variable: ΔGDP 53
4.3 State-owned bank loans for fixed assets (% of total fixed asset investment) 57
4.4 Estimates of solvency in state-owned banks 60
5.1 The development of non-bank financial institutions in China 64
5.2 Summary rural credit cooperative data 65
5.3 Summary urban credit cooperative data
5.4 Summary trust and investment company data
5.5 Non-state sector rural savings mobilization
5.6 Lending to the rural non-state sector
5.7 Lending to the urban non-state sector
6.1 Initial stages of stock market development in China
6.2 The development of national stock markets in China
6.3 Savings mobilized via stock markets, other domestic securities and financial institutions
6.4 Model results: dependent variable: MC
6.5 Stock market volatility in China: a comparative perspective
7.1 Foreign direct investment in China
7.2 Foreign loans in China
7.3 The value and maturity of foreign commercial loans
7.4 Foreign portfolio investment in China
7.5 Domestic and overseas share listings: raised capital
7.6 China’s investment abroad
7.7 Capital flight from China
7.8 Official and estimated equilibrium exchange rates in China (RMB/$US)
7.9 Controls on capital transactions, 2000
7.10 Data and estimates of China’s optimal foreign borrowing
7.11 The sustainability of China’s foreign debt
A1 Financial depth modeling data
A2 Derivation of DGV (billion yuan, 1990 prices)
A3 Derivation of DNPF (billion yuan, 1990 prices)
A4 Derivation of DINT (billion yuan, 1990 prices)
A5 Derivation of LAB (million workers)
A6 Investment productivity modeling data
