Tables

2.1 Sources of local government revenues as a percentage of total local government revenues for selected fiscal years 10
2.2 Local income tax receipts as a percentage of total local tax collections for fiscal year 1996 11
2.3 95/5 ratio and Theil index: property wealth and income per pupil, Massachusetts, New Jersey, New York and Texas, 1990 22
2.4 Ratio of district property wealth per pupil to state property wealth per pupil and ratio of district income per pupil to state income per pupil, selected school districts, 1990 23
2C.1 Average residential property tax and personal income tax burdens, by quintile 34
3.1 Year state adopted sales tax 48
3.2 Variations in local sales tax rates 50
3.3 Year state adopted income tax 53
3.4 Number of local governments with income taxes 54
3.5 Sample cities 55
3.6 Regression results for simultaneous model (standard errors) 64
4.1 Assumptions and parameterization 79
4.2 Calibration to NYC economy, 1997 81
4.3 Eliminating NYC sales, capital and income taxes 83
4.4 Eliminating NYC sales, capital and income taxes without changing aggregate tax revenue 87
5.1 Characteristics of properties sold 115
5.2 Number of properties sold, by ring 116
5.3 Selected coefficients from regression results for models 1 and 2 dependent variable = log of price per unit 117
5.4 Selected coefficients from regression results for models 3 and 4 dependent variable = log of price per unit 120
5.5 Estimated ratio of benefits generated in 500-foot ring to costs of subsidies 121
7.1 K-12 private schools, by type, 1995–6 173
7.2 Private schools, by religious affiliation or other orientation, 1995–6 174
Tables

7.3 Percentage of elementary and secondary school students in private school, by race and Hispanic origin and metropolitan status, October 2000 176
7.4 Private school enrollment, by family income and grade level, 1998 177
7.6 Percentage of students in private schools, grades 9–12, by region, 1980 and 1995 180
7.7 Enrollment, racial composition and segregation in K-12 schools, by region, 1995 183
8.1 Amount and relative importance of direct government support of the arts 208
8.2 Amount and relative importance of direct government support of the arts, by age and size 210
8.3 Amount and relative importance of private contributions to the arts 215
8.4 Amount and relative importance of private contributions to the arts, by age and size 216
8.5 Amount and relative importance of tax incentives for private contributions to the arts 218
8.6 Amount and relative importance of tax incentives for private contributions to the arts, by age and size 219
8.7 Amount and relative importance of tax exemption for nonprofit arts organizations 223
8.8 Amount and relative importance of tax exemption for nonprofit arts organizations, by age and size 224
8.9 Amount and relative importance of direct and indirect subsidies for the arts 228
8.10 Amount and relative importance of direct and indirect subsidies for the arts, by age and size 230
8.11 Direct and indirect subsidies for the arts 231
8.12 Direct and indirect government subsidies for the arts 232
8.13 Distribution of arts subsidy, by type of artistic activity 233
