The volume comprises papers that were requested from various authors, who exchanged ideas and provided each other with critical comments at the Second L’institute–Milwaukee Workshop on ‘Urban and regional prosperity in a globalised economy’. Each of the contributions has been revised as a result of this rigorous process. Moreover, the initial choice of requested papers was a product of the First L’institute–Milwaukee Workshop on ‘Enterprise strategies and regional growth policies in the new global economy’. This volume is accordingly an outcome of a process involving researchers at both workshops, and the editors would like to acknowledge the contribution of each of those participants. They were as follows:

John Addison       Susan Gupta       Kanti Prasad
Bart Armah         Thomas Hefty      Georgia Saemann

Last but not least, the editors would particularly like to acknowledge the contribution of Marcela Valania, who took overall responsibility for administering each of the workshops, and to thank administrative staff at the University of Wisconsin-Milwaukee’s Department of Economics (College of Letters and Science) and School of Business Administration, hosts of both workshops.
