The International Institute for Applied Systems Analysis

is an interdisciplinary, nongovernmental research institution founded in 1972 by leading scientific organizations in 12 countries. Situated near Vienna, in the center of Europe, IIASA has been producing valuable scientific research on economic, technological, and environmental issues for over three decades.

IIASA was one of the first international institutes to systematically study global issues of environment, technology, and development. IIASA's Governing Council states that the Institute's goal is: *to conduct international and interdisciplinary scientific studies to provide timely and relevant information and options, addressing critical issues of global environmental, economic, and social change, for the benefit of the public, the scientific community, and national and international institutions.* Research is organized around three central themes:

- Energy and Technology;
- Environment and Natural Resources;
- Population and Society.

The Institute now has National Member Organizations in the following countries:

Austria

The Austrian Academy of Sciences

China

National Natural Science
Foundation of China

Czech Republic

The Academy of Sciences of the
Czech Republic

Egypt

Academy of Scientific Research
and Technology (ASRT)

Estonia

Estonian Association for
Systems Analysis

Finland

The Finnish Committee for IIASA

Germany

The Association for the Advancement
of IIASA

Hungary

The Hungarian Committee for Applied
Systems Analysis

Japan

The Japan Committee for IIASA

Netherlands

The Netherlands Organization for
Scientific Research (NWO)

Norway

The Research Council of Norway

Poland

The Polish Academy of Sciences

Russian Federation

The Russian Academy of Sciences

Sweden

The Swedish Research Council for
Environment, Agricultural Sciences
and Spatial Planning (FORMAS)

Ukraine

The Ukrainian Academy of Sciences

United States of America

The American Academy of Arts
and Sciences
