1 Introduction 1

*Michael Faure and Nicole Niessen*
1 Problem definition: reasons for this book 1
2 History and origins of this book 3
3 Methodology 4
   3.1 Legal multidisciplinary 4
   3.2 Comparative approach 6
   3.3 Multidisciplinary 6
4 Framework of the project 6
5 Structure of this book 7
6 Contributors 7
7 Words of thanks 8

2 Human rights and general principles and their importance as a legislative technique. Do they matter in legislation? An analysis with specific reference to environmental protection 9

*Aalt Willem Heringa*
1 Introduction 9
2 Interpretation 10
3 Legislative technique 11
4 Application in environmental law: learning from the European Court of Human Rights 12
   4.1 General principles approach by the European Court of Human Rights 12
   4.2 Applicability of Article 8 § 1 of the Convention 14
   4.3 The general principles and their role in environment cases 15
   4.4 General lessons 19
5 Lessons for codification projects 20
6 How to proceed in environmental lawmaker? 21
Three principles of environmental law: the polluter-pays principle, the principle of prevention, and the precautionary principle

Andri G. Wibisana

1 Introduction

2 The polluter-pays principle
   2.1 The origin of the principle
   2.2 Application of the principle
      2.2.1 Instruments to implement the principle
         2.2.1.1 Liability rules: negligence versus strict liability
         2.2.1.2 Liability and regulation
         2.2.1.3 Liability and insurance
      2.2.2 Regulation or liability: defining the polluter
      2.3 The polluter-pays principle according to Act No. 23 of 1997

3 The preventive principle
   3.1 Introduction
   3.2 The relationship between the preventive principle and other principles
   3.3 The preventive principle according to Act No. 23 of 1997

4 The precautionary principle
   4.1 The development of the principle
   4.2 The development of the precautionary principle at international level
   4.3 Interpretations of the precautionary principle
      4.3.1 Different formulations on the precautionary principle
      4.3.2 The need for a common interpretation of the precautionary principle?
   4.4 The precautionary principle and CBA
   4.5 Risk analysis and the precautionary principle

5 Conclusion

4 The implications of international conventions for the development of the Environmental Management Act

Daud Silalahi

1 Introduction

2 Transnational-environmental issues to be included in the new Environmental Management Act
   2.1 Article 211 Law of the Sea 1982 concerning sea pollution from vessels
2.2 Article 220 Law of the Sea 1982 concerning enforcement by coastal states 81
2.3 Article 227 concerning investigation of foreign vessels 81
2.4 Article 228 concerning suspension and restrictions on institution of proceedings 81
2.5 Article 229 and 235 concerning institution of civil proceedings and responsibility and liability 82
2.6 Article 292 concerning prompt release of vessels 82
2.7 Act No. 6/1996 concerning Indonesian Waters 83
2.8 Act No. 21/1992 concerning navigation 83
2.9 Act No. 5/1990 concerning conservation and ecosystem 83
2.10 Action programmes 83
3 Comparative studies 85
3.1 Australia 85
3.2 The Philippines 86
3.3 Canada and USA 86
4 Comments on several rules of the Environmental Management Act of 1997 86
4.1 The improvement of several general provisions 86
4.2 Improvement of basic principles 87
4.3 Institutional arrangements 87
4.4 Legal instruments 87
5 Conclusions 89
5 Elaborating on integration of environmental legislation: the case of Indonesia 92

Marjan Peeters

---

1 To distinguish the concepts of external and internal integration 92
1.1 Sustainable development and external integration 92
1.2 Internal integration: the focus of this contribution 94
2 Integration of environmental legislation 95
2.1 Some strong arguments for integration of environmental legislation 95
2.1.1 Ecological unity as a justification for integration 95
2.1.2 Integration as an economic sound approach 95
2.1.3 Integration, centralization and decentralization 96
2.2 Harmonization and coordination as methods for coherency 97
2.3 Ultimate goal: one Environmental Code
2.3.1 Indeed an ultimate goal
2.3.2 A scheme for one Environmental Code
2.4 The concept of integration balanced with the choice of instruments and the structure of the administrative organization
2.4.1 An optimal instrument mix
2.4.2 The administrative organization
2.5 Conclusion: The challenging task to design environmental legislation
3 Two classical ways for regulatory interventions and their ability to facilitate an integrative approach
3.1 Introduction
3.2 The integrated permit
3.3 General rules
4 The Indonesian Environmental Management Act 1997
4.1 One Indonesian Environmental Code?
4.2 The EMA as a basis for integrated regulatory interventions
4.2.1 Licensing
4.2.2 General rules
4.3 A balanced approach
5 Conclusion
6 Toward integrated environmental law: Indonesian experiences so far and expectations of a future Environmental Management Act
Takdir Rahmadi
1 The idea of integrated environmental management
2 How to implement integrated environmental management into reality: the Indonesian experience so far
2.1 Institutional arrangements
2.2 Struggling for the creation of an integrated environmental law
2.2.1 The relationship of the EMA with sectoral legislation
3 The Future EMA
3.1 Environmental Code as an ultimate goal
3.2 Integrated licences
3.3 Combination of command and control, voluntary approach and market-based instruments
4 Conclusions
Contents

7 Decentralized environmental management
Nicole Niessen
1 Introduction 143
2 Decentralization of environmental management: a comparative analysis 144
  2.1 Decentralization: pros and cons 144
  2.2 Decentralized environmental management in Europe and the USA 146
  2.3 Decentralized environmental management in developing countries 149
3 The Dutch model: a rough sketch 150
  3.1 A decentralized unitary state 150
  3.2 General administrative law 152
  3.3 Environmental protection law 154
  3.4 Multi-level environmental management 157
4 Decentralization of environmental management in Indonesia 158
  4.1 The legal-institutional framework for regional government 158
  4.2 The legal-institutional framework for environmental management 161
  4.3 Discord between the EMA 1997 and the RGA 1999 163
  4.4 Constraints and criticism 166
5 Towards a new paradigm for environmental management in Indonesia? 170
  5.1 Why legal reform? 170
  5.2 General lawmaking caveats 171
  5.3 Legal-institutional design for multilevel environmental management 172
  5.4 Non-legal means to strengthen environmental management capacity 177
6 Conclusion 177

8 Supervision and enforcement in the Law Concerning Environmental Management, Law No. 23 of 1997
Frits Stroink
1 Introduction 182
2 Some general starting points of constitutional and administrative law 183
3 The Indonesian EMA revisited? 186

Michael Faure and Nicole Niessen - 9781847202918

Towards a new model of criminalization of environmental pollution: the case of Indonesia

Michael Faure

1 Introduction

2 Administrative dependence of environmental criminal law

3 Problems with the absolute administrative dependence of environmental criminal law
   3.1 Too limited protection of the environment
   3.2 Example: Bayer-case
   3.3 Farewell to administrative dependence of the criminal law?
   3.4 Towards a more limited administrative dependence of the criminal law?

4 Towards a new model for the protection of the environment through the criminal law
   4.1 Abstract endangerment
   4.2 Concrete endangerment
   4.3 Independent crime for pollution with serious consequences
   4.4 An optimal combination of various provisions

5 Application: Council of Europe Convention
   5.1 Applying the new model
   5.2 Concrete endangerment
   5.3 Independent crime
   5.4 Abstract endangerment

6 Indonesian Environmental Management Act
   6.1 Chapter IX
   6.2 Article 41(1)
   6.3 Article 41(2)
   6.4 Article 42(1)
   6.5 Article 43
   6.6 Articles 44–46
   6.7 In sum

7 An alternative formulation
   7.1 Goal
   7.2 Concrete endangerment
   7.3 Abstract endangerment
   7.4 Independent crime with serious consequences

8 Concluding remarks
Contents

10 Economic instruments: suited to developing countries? 218
Michael Faure, Marjan Peeters and Andri G. Wibisana

1 Introduction 218
2 Shortcomings of command and control 220
3 Economic principles of environmental taxation 225
   3.1 The Pigouvian tax 225
   3.2 In practice: regulatory charges 228
   3.3 Regulatory versus budgetary charges 230
4 Emissions trading 231
   4.1 Economic principles 231
   4.2 A closer look at some potential problems with implementing emissions trading 234
   4.3 Practice in the US: emissions trading for stationary sources under the Clean Air Act 236
   4.4 Practice in the US: the acid rain allowance trading programme 237
   4.5 Practice in Europe: EU Directive of 13 October 2003 on CO₂ emissions (2003/87/EC) 239
5 Regulation, marketable permits and taxes compared 241
6 Practice 244
   6.1 Marketable permits 244
   6.2 Environmental taxes 247
7 Interest group analysis 249
   7.1 Lobby for barriers to entry or lenient standards 249
   7.2 Influence of private interest on instrument choice 252
   7.3 Example: the Dutch energy tax 253
8 Concluding remarks 255

11 Towards effective environmental legislation in Indonesia? 263
Michael Faure and Nicole Niessen

1 Introduction 263
2 Law and development 264
   2.1 Law reform in developing countries 264
   2.2 Drafting country-specific laws 265
   2.3 Legislative quality indicators 266
3 Developing environmental law 267
   3.1 Definition of the environment 267
   3.2 Integration, harmonization and coordination 269
   3.3 Multi-level approach 271
   3.4 International environmental law 273
4 Choice of instruments 275
   4.1 Command and control 278
