---

This manuscript is based on the final report for the project ‘Mergers and Acquisitions and Science and Technology Policy’ financed by the European Commission, DG Research (Contract No. ERBHPV2-CT-1999-13). We would like to thank a number of people who, with their contributions from the start of this research project, have allowed this publication to be produced. In particular, the scientific officers of the project, Dr Jean Bourles and Dr Marianne Paasi, need to be thanked for their work on this project – as well as Fotini Chiou in preparing this publication. Professor Luc Soete should also be thanked for taking on the important role as scientific referee. The final publication of the manuscript was, however, only possible because of the intensive collaboration between the European Publication Office (OPOCE) and Edward Elgar Publishing.

We would also like to mention people involved in the project research, but who subsequently moved on to other activities: Laurence Capron, INSEAD; Mario Calderini, Politecnico di Torino; Walter García Fontes, Universitat Pompeu Fabra and Lucia Piscitello, Politecnico di Milano. We also acknowledge the excellent research assistance by Larissa Rabbiosi in the empirical analysis and Giovanni Valentini in the editing process, especially on Chapter 9.
