Figures

1.1 Labour– and product–market equilibrium 9
1.2 Trade and shift of PPF 10
1.3 Marshallian employment rate–real wage diagram 12
2.1(a) Singapore’s unemployment rate, 1966–98 21
2.1(b) Unemployment rate of some OECD countries 21
2.1(c) Real annual remuneration per worker in manufacturing, 1960–98 22
2.2 Singapore’s plot of inflation rate against unemployment rate, 1966–93 23
2.3 Manufacturing sector’s share of total employment, 1966–92 25
2.4(a) Plot of real export wage index by selected major industry groups 27
2.4(b) Plot of real export wage index by selected major industry groups 28
2.5(a) Physical capital–labour ratio by selected major industry groups 29
2.5(b) Physical capital–labour ratio by selected major industry groups 30
2.6 Trend of export price relative to non-traded good price, 1966–92 31
2.7 The expenditure share of major components in consumption basket 32
2.8 Marshallian diagram 33
2.9 Effect of NWC on wage-setting curve 36
2.10 Trend of wage-employment equilibrium with shifting labour demand and wage-setting curves 37
3.1 Dynamics in a closed economy 51
3.2 Global stability 53
3.3 Multilateral tariffs 56
3.4 Unemployment benefits and payroll taxes 59
3.5 World production possibilities frontier 63
3.6 Shift of PPF as a result of trade 64
4.1 Labour– and product–market equilibrium 82
4.2 Equilibrium in autarky and under trade 85
4.3 Effect of trade for net exporter of labour-intensive good 87
5.1 Equilibrium in a closed economy 103
5.2 Effects of trade 105
5.3 Model with capital and labour 108
5.4(a) Downward-sloping RHS 110
5.4(b) Upward-sloping RHS 110
6.1 Equilibrium in full-information model 120
6.2 Equilibrium with capital and labour 123
7.1 Equilibrium in dual labour market 131
7.2 Determination of $n_x$ 133
7.3 Equilibrium with two competitive sectors 137
7.4 Equilibrium in PPF diagram in autarky 138
7.5 Home’s incentive-wage curve 138
7.6 Equilibrium in autarky and under trade 139
7.7 Home’s trade offer curve 139
7.8 Superimposing Home’s and Foreign’s trade offer curves 140
7.9 Equilibrium expressed in diagram with $p$ 141
8.1 Bowley–Edgeworth box diagram 149
8.2 Equilibrium in case where $\sigma > 1$ 150
8.3 Lerner diagram 151
9.1 Iso-interest labour supply and capital–market equilibrium 162
9.2 Variable-interest labour supply and demand 163
9.3 Revenue-neutral tax shift 164
9.4 Variable-interest labour supply and demand 167
9.5 Growth in small open economy 168
