<b>PART I INTRODUCING THE IMMIGRANT–TRADE LINK</b>	
1 Migration, trade and globalization	3
1.1 The channels through which immigrants increase trade flows	6
1.2 The structure of this book	10
2 The gravity model and the literature on the immigrant–trade link	16
2.1 A brief introduction to the gravity model of international trade	17
2.2 A sketch of the immigrant–trade nexus	19
<b>PART II THE EFFECTS OF IMMIGRANTS ON INTERNATIONAL TRADE IN GOODS AND SERVICES</b>	
3 Immigration policy, economic development and the immigrant–trade link: The case of the White Australia Policy	31
3.1 Allowing for differences across home country classifications: Augmenting the gravity specification	33
3.2 Immigration policy, demographics and the immigrant–trade link	37
3.3 Variation across home country economic development classifications	48
3.4 Conclusions	55
3.5 Appendix	56
4 East–West migration and trade: The pro-trade effects of immigrants in Italy	58
4.1 Identifying home country cohort-specific effects: the estimation equation, data and variables	60

4.2	Variation in immigrant–trade links across home country cohorts	63
4.3	Conclusions	78
4.4	Appendix	78
5	Beyond trade in goods: Immigrants and US exports of tourism services	79
5.1	Findings from prior studies of tourism exports	81
5.2	The theoretical framework and derivation of the empirical model	82
5.3	Immigrants and host country exports of services to their home countries	88
5.4	Conclusions	96
5.5	Appendix	97

### PART III THE CULTURAL BRIDGING EFFECTS OF IMMIGRANTS ON TRADE

6	The trade-inhibiting effects of cultural differences: Evidence from nine OECD countries	101
6.1	Prior studies of the influence of cultural distance on trade flows	103
6.2	Multiple host countries, cultural distance and trade: Modifying the estimation equation	104
6.3	Immigrants, cultural distance and trade	112
6.4	Conclusions	129
6.5	Appendix	129
7	Immigrants and the effects of cultural distance: An examination of aggregate US trade data	131
7.1	Measuring US–home country cultural distance: Calculation and component dimensions	132
7.2	Decomposing the effects of cultural distance: Further modifying the estimation equation	137
7.3	The pro-trade effects of immigrants as a counter to cultural distance	139
7.4	Conclusions	145
7.5	Appendix	146
8	Heterogeneity across immigrant groups: The effects of refugee and non-refugee immigrants on US trade	147
8.1	Entry classifications and expected variation in the immigrant–trade link	149
8.2	Modeling potential variation across immigrant	

	types: Econometric specifications, data and variable construction	150
8.3	Differences in the influences of refugees and non-refugee immigrants on trade flows	153
8.4	Conclusions	166
8.5	Appendix	167
<b>PART IV THE OPERABILITY AND UNIVERSALITY OF THE IMMIGRANT–TRADE LINK</b>		
9	The effects of immigrants on trade in cultural and non-cultural goods: Evidence from US state-level exports	173
9.1	The rationale for a state-level analysis of the immigrant–export link	175
9.2	Presentation of the empirical model, the data and variables	176
9.3	Immigrants, cultural distance and US state-level exports	179
9.4	Conclusions	190
10	Asymmetric information and trade-facilitating infrastructure: Variation in the immigrant–trade link across migration corridors	192
10.1	Extending the empirical model to allow for corridor-specific immigrant effects	194
10.2	Variation in the immigrant–trade link across migration corridors	199
10.3	Estimated trade-initiation and trade-intensification effects	208
10.4	Conclusions	211
10.5	Appendix	212
11	Transaction costs and the immigrant–trade link: Does the volume of bilateral trade matter?	214
11.1	Trade volumes, transaction costs and immigrants’ abilities to affect trade	214
11.2	The SQREG technique: The theoretical intuition, econometric specification and data	216
11.3	The volume of trade and the dissipation of immigrant–trade links	222
11.4	Conclusions	239
12	Are the effects of immigrants (emigrants) on trade universal?	241
12.1	The gravity model and non-parametric estimation of the immigrant–trade relationship	243

12.2	Are the effects of immigrants (emigrants) on trade universal?	248
12.3	The operability of immigrant (emigrant) effects on trade	260
12.4	Conclusions	266
12.5	Appendix	267
PART V FINDINGS, IMPLICATIONS AND QUESTIONS THAT REMAIN		
13	A summary of findings from the application of the gravity model	273
13.1	The effects of immigrants on international trade in goods and services	273
13.2	The trade-inhibiting effects of cultural distance and immigrants' ability to bridge cultural differences	276
13.3	On the universality and operability of the immigrant–trade link	279
14	Lessons learned and suggestions for future research	283
14.1	The lessons learned	283
14.2	Suggestions for future research	285
