residual autocorrelation 149–50
semistructural 523–4, 526, 539
sign-identified 533–7, 540, 546, 548
stationary 20, 24–5, 150, 158
structural (SVAR) 18, 22–4, 36, 39, 139, 141, 143–4, 147, 155–6, 159–60, 433, 491, 515–16, 518, 520, 523, 526–8, 532–6, 542–3, 545–50, 565
threshold 569
time varying parameter (TVP) 338, 486, 550, 555
use in foreign exchange intervention 567–8
vector equilibrium correction model (VEqCM) 26
vector error correction model (VECM) 26, 57, 201
cointegrating 185
first order 27, 181
vector moving average (VMA) 21, 23
Volcker, Paul
Chairman of Federal Reserve Board 208

Wald test 147, 154, 192–2, 196, 207–9, 213, 215, 225, 323, 385–6, 392
sequential 215–16
Wiener, Norbert 105
Wiener–Kolmogorov (W–K) filter 120–21, 124
classical 119
lowpass 107–8
purpose of 105
Wiener–Kolmogorov (W–K) theory 96, 107, 130
adaptation of 110

Yale University 166
Yule, G. Udny 165–6
