

Figures

1.1	GDP growth rates in regional groupings, 1971–2009	2
1.2	Per capita energy use, 1971–2009	2
1.3	Per capita CO ₂ emissions, 1971–2007	3
2.1	Economy-wide circular flow of goods	14
2.2	Multi-step Euler procedure to reduce linearisation error	24
3.1	Papua New Guinea's GDP growth rates, 2000–09 (%)	31
3.2	Papua New Guinea's inflation rate, 2005–10 (%)	32
3.3	Impacts on sectoral output resulting from agricultural and fisheries expansion	45
3.4	Impact of commodity price movements on PNG's GDP growth rate (% change)	46
3.5	Sectoral impacts of movements in commodity prices	47
3.6	Sectoral impacts of the LNG project	49
3.7	Employment impacts of the LNG project	51
4.1	Export trends of Fiji's key industries	62
4.2	Fiji: economic growth impacts of targeted versus integrated policies (average growth rate, 2010–15, % change)	68
4.3	Fiji: impact on exports of targeted versus integrated policies (average growth rate, 2010–15, % change)	70
4.4	GDP impacts of the Global Financial Crisis (2010–15, % change)	74
5.1a	Impact on PNG's real GDP growth (% change)	92
5.1b	Impact on Fiji's real GDP growth (% change)	92
5.2a	Impact on PNG's key sectors (period average, %)	94
5.2b	Impact on Fiji's key sectors (period average, %)	94
5.3	Impact on trade (period average, %)	96
5.4	Impact on employment (period average, %)	97
6.1	Structure of production	110
7.1	Australia's GDP growth rate, 1978–2009	137
7.2	Contributions to GDP growth rate: selected sectors	138
7.3	Australian energy production	139
7.4	Australia's mineral fuel exports, 2005–06 to 2010–11	139
7.5	Growth in primary energy consumption and GDP	140
7.6	Australia's energy intensity	141
7.7	CO ₂ emissions per capita for selected OECD countries	142

7.8	CO ₂ -e emissions growth under the basecase (% changes relative to basecase)	148
7.9	Impact of a carbon tax on real output and employment (% changes relative to basecase)	149
7.10	Impact of a carbon tax on real domestic absorption (% changes relative to basecase)	150
7.11	Impact of a carbon tax on trade and the real exchange rate (% changes relative to basecase)	150
7.12a	Impact of a carbon tax on industry output: losers (% changes relative to basecase)	151
7.12b	Impact of a carbon tax on industry output: winners (% changes relative to basecase)	152
7.13	Impact of a carbon tax on regional CPI	153
7.14	Impact of a carbon tax regional GSP (% changes relative to basecase)	153
7.15	Impact of a carbon tax on emissions by region (% changes relative to basecase, cumulative, Kt)	154
8.1	Impacts of the decline in agricultural productivity on GDP growth	169
8.2	Impacts of the decline in agricultural productivity on welfare (equivalent variation) in Africa by the 2050s	170
8.3	Impacts of the decline in agricultural productivity on global welfare (equivalent variation) by the 2050s	170
8.4	Ratio of domestic to imported prices for agricultural products (expressed as a percentage)	171
