References

Note: single-author publications are listed alphabetically by family name, then by year; two-author publications are listed by family names, then by date; three-or-more-author publications (which appear as et al. in the text) are listed by first author family name, then by date. Within a sequence of publications by a single family name, the precedence is: single author, then two authors, then three or more authors. Authors’ given names are not used to order publications.
