<i>List of contributors</i>	viii
1 The sustainable city: introduction and overview <i>Hilda Blanco and Daniel A. Mazmanian</i>	1
PART I STRATEGIES	
2 Rediscovering compact cities for sustainability <i>Peter Newman</i>	15
3 Potable, stormwater and wastewater city strategies in the context of climate change <i>Blanca Jiménez Cisneros</i>	32
4 Urban food systems strategies <i>Nevin Cohen</i>	57
5 Sustainability strategies for consumer products in cities <i>Gregory A. Keoleian, Joshua P. Newell, Ming Xu and Erin Dreps</i>	86
6 Strategies for growing green business and industry in a city <i>Karen Chapple</i>	116
7 Strategies and considerations for investing in sustainable city infrastructure <i>Rae Zimmerman</i>	133
8 Aligning fiscal and environmental sustainability <i>Richard F. Callahan and Mark Pisano</i>	154
9 Gauging the health of a city: maximizing health and sustainability <i>Alek Miller and Richard J. Jackson</i>	166
10 From information provision to participatory deliberation: engaging residents in the transition toward sustainable cities <i>Michaela Zint and Kimberly S. Wolske</i>	188

vi	<i>Elgar companion to sustainable cities</i>	
11	Developing effective participatory processes for a sustainable city <i>Connie P. Ozawa</i>	210
12	A measure of justice: environmental equity and the sustainable city <i>Manuel Pastor</i>	228
PART II METHODS		
13	Analyzing a city's metabolism <i>Christopher Kennedy, Larry Baker and Helge Brattebo</i>	255
14	Developing sustainable cities indicators <i>Kent E. Portney</i>	283
15	Climate action planning <i>Michael R. Boswell, Adrienne I. Greve and Tammy L. Seale</i>	302
16	Climate change adaptation <i>Adrienne I. Greve and Michael R. Boswell</i>	320
17	Economic resilience and the sustainability of cities in the face of climate change: an ecological economics framework <i>Adam Rose</i>	336
18	A systems approach towards sustainable procurement <i>Laurie Kaye Nijaki</i>	354
PART III THE FUTURE		
19	Urban design and sustainability: looking backward to move forward <i>Tridib Banerjee</i>	381
20	The future of sustainable economic development in cities <i>Edward J. Blakely</i>	397
21	Sustainable cities and governance: what are the connections? <i>Daniel J. Fiorino</i>	413
22	Technology and city sustainability <i>Bill Tomlinson</i>	434

23	Conclusion	449
	<i>Daniel A. Mazmanian and Hilda Blanco</i>
