The evolution of the world economy

Ethiopia
- attracting China’s manufacturing FDI 136–7, 142
- as follower goose 142–3
- labor-driven phase of catch-up more likely in 142
- survey on Chinese investment in 130

Europe
- adoption of strategic trade policy 112
- attracting Chinese acquisitions 117
- China exporting labor-intensive manufactures to 81–2
- doctrine of infant-industry protection taken up by 41
- early post-war recovery 145
- Eastern, reform 175
- Ethiopia as base for exports to 136
- Everything But Arms (EBA) initiative 134
- FDI across Africa 138, 149
- leadership in, and rise of East Asian economies 158
- lifting sanctions against Myanmar 45
- as losing ground in high-tech market 180
- majority of leading consumer products from 50
- as matured and stagnant 159
- percentage of world manufacturing value-added 122
- predecessors of MNCs traced to trading companies from 91
- rapid technological and structural changes 91
- stages theory of growth based on early industrialization 28

export promotion (EP)
- Akamatsu’s and List’s perspectives on 18
- cum import substitution (IS) 4–5
- impact of MNCs 7
- and infant-industry protection 11
- ‘factor-price magnification’ theorem 144
- FDI
  - cum-aid resources diplomacy 104–7, 109–10, 118
  - inward
    - China’s 81–2, 144
    - classification of 53
    - fully packaged factory transplantation as 31
    - Japan’s avoidance of 108
    - and MNCs 102
    - more open regimes 45
    - in MPX progression 7, 11–13, 15, 63
    - pro-trade or anti-trade 84
  - outward
    - China’s 117, 126, 139, 148
    - and MNCs 102
    - in MPX progression 7, 10–13, 15
    - pro-trade vs. anti-trade 71–85
    - role in catch-up industrialization 65–70
- FDI-led industrial take-off
- vs. infant-industry protection approach 58–61
- moving from infant industry protection to 62–3

Ferguson, N. 160–162
- flying-geese (FG) theory of economic development
  - Akamatsu as originator of 3
  - basic pattern 4–5, 18
  - China’s flying-geese formation 138–52
  - developments requiring incorporation 15
- FDI-driven
  - China 11–12, 141–3, 148–9
  - growth efficacy 71, 84
  - process of MPX 7
  - FG-style catch-up 141
  - FG-style growth 15
- China’s Communist regime 170–176
- hegemonic leadership, change of 160–167
- leadership and follower capacity 157–60
- possibility of Cold War 2.0 176–80
- regional dominance in rising China 167–70
FG-style leader-follower relations  
140
fundamental/basic pattern of 4–5, 14, 17–18, 22
and ‘history repeats itself’ aphorism  
55
List’s stages model as foundation of  
17
need for reformulation 14–15
as outdated 3
post-MPX process 8–13
and rise of multinationals 6–8
role of nationalism in 16
same mechanism as cross-border
transmigration of manufacturing  
16
