

Figures

2.1	Taxonomy of uncertainty in SP studies	16
4.1	100 years of temperature change	38
4.2	Temperature scale	39
4.3	Likelihood scale	39
4.4	An example of a choice question	41
5.1	Policy issues ranking	52
5.2	Respondents' perceptions of climate change impact on Australia	55
5.3	Respondents' perceptions of climate change impact on their households	55
6.1	Probability distribution function of stated WTP	68
7.1	Responses to the WTP question	78
8.1	Mean compensating surplus of the CPRS when policy outcomes are 'Likely'	98
9.1	Theoretical model of preference uncertainty	103
9.2	WTP distribution function of individual respondent	104
9.3	WTP distribution function across all respondents and bid levels: normal distribution	104
9.4	WTP distribution function across all respondents and bid levels: log-normal distribution	105
9.5	Distribution of certainty scores across respondents' answers to choice questions	116
9.6	Distribution of certainty scores across the sequence of choice questions	117
