| <i>List of contributors</i>  | vii |
| <i>Introduction</i>  | ix  |
| 1. Modeling single individuals: the journey from psych lab to the app store<br><i>Jordan J. Louviere</i>   | 1   |
| 2. Forecasting behaviour: with applications to transport<br><i>Andrew Daly</i>   | 48  |
| 3. Workshop report: recent advances on modeling multiple discrete-continuous choices<br><i>Abdul Pinjari, Chandra Bhat and David S. Bunch</i>  | 73  |
| 4. Workshop report: working with repeated choice data<br><i>Andrew Daly, Stephane Hess and Christine Eckert</i>  | 91  |
| 5. Workshop report: mental representations and discrete choice behaviour: state-of-the-art and avenues for future research<br><i>Benedict G.C. Dellaert, Theo Arentze, Caspar G. Chorus, Harmen Oppewal and Geert Wets</i> | 107 |
| 6. Workshop report: good data is key to the development of good models so how is innovation in data collection keeping apace?<br><i>Rob Sheldon, Martin Dix, Terry Flynn and Paul Metcalfe</i>                             | 125 |
| 7. Applied welfare economics with discrete choice models: implications of theory for empirical specification<br><i>Richard Batley and J. Nicolás Ibáñez</i>  | 144 |
| 8. A comprehensive model to capture the preference for mass rapid transit in Dhaka<br><i>Annesha Enam and Charisma F. Choudhury</i>  | 172 |
| 9. On the perception of safety in low income neighbourhoods: using digital images in a stated choice experiment<br><i>Paula Iglesias, Margarita Greene and Juan de Dios Ortúzar</i>  | 193 |
| 10. How urban environment affects travel behaviour: integrated choice and latent variable model for travel schedules<br><i>Lissy La Paix, Michel Bierlaire, Elisabetta Cherchi and Andrés Monzón</i>                       | 211 |

|     |   |     |
|-----|---|-----|
| 11. | Selecting a date: a matter of regret and compromises<br><i>Caspar G. Chorus and John M. Rose</i>  | 229 |
| 12. | Trivariate probit models of pre-purchase/purchase shopping<br>channel choice: clothing purchases in Northern California<br><i>Patricia L. Mokhtarian and Wei (Laura) Tang</i> | 243 |
| 13. | Choice models of travel demand in practice: current trends,<br>problems and welcome research directions<br><i>Peter Vovsha</i>  | 274 |
|     | <i>Index</i>  | 303 |
