qualifying directive provisions 156–8
offshore drilling 181–2
optimal level of pollution 103
output-legitimacy 14, 22, 43–4
overall Environmental Framework Directive 6, 84–6, 243–4
ozone layer depletion 95–6
particulate matter 35, 122–3, 180–1, 182
participation, public 14, 22–3, 44, 45, 204–5, 254
per capita allowances 189
permits integrated see integrated permitting
revocation or tightening of 138–9
plans
Habitats Directive 27–8
plan or programme in programmatic approach 123–4, 130–1, 134, 135, 142
compulsory adjustment of 124–5, 132, 134, 143
point sources of pollution 118–19, 128–9
policy choices 3
policy discretion 18
see also discretion
political legitimacy 14, 22–3, 44, 45
Index

precautionary approach to nanomaterials regulation 7, 220, 227–30, 231, 249
precautionary principle 218, 227–8
prevention of deterioration see deterioration prevention
price increases for energy 182–3
Priority Substances Directive (PSD) 160–1
private property 136–8
procedural coordination 94
procedural problems 135–6
procedural rights 254
proceduralisation 203
Adaptation Directive and 206–7, 207–8
flexibility, effectiveness and legitimacy 5, 13–47, 236–7
Floods Directive 203–5
Governance Mode Directives 31–5, 36, 38–45
product-specific nanomaterials regulation 7, 220, 224–7, 231, 249
programmatic approach 6, 116–45, 240–1
Air Quality Directive 125, 132–4, 140, 143
core elements 123–5, 130–2, 134, 142–3
implementation of the measures 124, 131–2, 142
monitoring or compulsory adjustment of plans or programmes 124–5, 132, 134, 143
plan or programme 123–4, 130–1, 134, 135, 142
in the Netherlands see Netherlands, The
possibilities and restrictions in EU law 125–34
uncertain legal consequences of a failing programmatic approach 140–1
programmes of measures

Marine Strategy Framework Directive 64
Water Framework Directive 37, 38, 40, 41, 43, 60, 130–1
progressive reduction of pollution 159, 164–5, 171
Project on Emerging Nanotechnologies 213
projects 123–4
defining 75
Habitats Directive 27–8
procedural problems in executing 135–6
renewable energy 179
proportionality principle 52–5, 256
Proposal for the 7th Environmental Action Plan 196, 199–200
protected areas 26–9, 79, 127–8
public participation (input-legitimacy) 14, 22–3, 44, 45, 204–5, 254
public register of nanomaterials 219, 231, 250, 252
public works, problems in executing 135–6
qualification of directive provisions 156–8
Article 4 of the WFD 158–71
criteria 157–8
interpretation method 156
quantitative status (of groundwater) 33, 34, 41, 127, 128, 159, 167–8, 171
raw materials 108–9
reasonableness of obligations 155
reasonably possible measures 152–3, 154, 155
recasting of directives 81–2
reference water body 162–3
Registration, Evaluation, Authorisation and Restriction of Chemical substances (REACH) Regulation 215, 218, 219
and the precautionary principle 227
proposed revision 229
registration requirement 221–3
suitability for regulating nanomaterials 220–3, 231
regulations, compared with directives 50, 55–6
regulatory gaps 229
regulatory reviews 223
relativity principle 136
renewable energies 173, 174
administrative procedures for projects 179
implementation problems 178–80
support mechanisms 178–9
Renewable Energy Directive 175, 179, 238, 248–9
waterbed effect 185–6
research obligations 229
resilience 201
restricted policy discretion 18
result, obligations of see obligations of result
reversals of flow-direction 167–8
of pollution trends 159, 168–70, 171
revision of legislation 200
revocation of emission permits 138–9
rights discretion and procedural rights 254
human rights-based climate law 188–9
and their contribution to effectiveness of environmental legislation 251–5
risk assessment 203–5
risk reduction 203–5
river basin management plans 37, 38, 40, 41, 60, 129, 130–1
river basins 203–4
Royal Academy of Engineering 228
Royal Society 228
saltwater intrusions 167–8
Scientific Commission on Consumer Safety 224
sectoral directives 85
sectors 4
climate change and 196–7
shipping sector 187–8
short-term action plan 36–7
simplification of climate change law 186–9
single carbon market 187–8, 189, 253
small combustion plants 181
social-ecological resilience 201
Soil Directive 200
special conservation areas 26–9
specialists 5, 235
species protection 79–80
see also Birds Directive; Habitats Directive
SRU (German Advisory Council on the Environment) 228–30
standard setting 16, 20–21, 44–5
comparison of Classical and Governance Mode Directives 41–2
NEC Directive 66
Water Framework Directive 21, 30–34, 41, 60–1, 126–9
stand-still principle 31, 128, 159
step-by-step approach 96–7
Strategic Environmental Assessment (SEA) Directive 73–4
Styles, D. 105
subsidiarity principle 67, 70, 256
framework directives 49, 52–5
substance identification 222
substantive integration 94
substantive provisions, direct effect of 251–3
sufficiently precise provisions 17–18
supplementary measures 37
support mechanisms for renewable energy 178–9
surface water status 30–3, 35, 41, 126–7, 128–9, 158, 159–63, 171
chemical status 31, 32–3, 41, 126, 128, 158, 160–2, 171
ecological status 31, 32, 41, 60–61, 127, 128, 158, 162–3, 171
prevention of deterioration 158, 159–60, 171
Index

sustainability of biofuel 179–80
sustainable development 92
synthetic biology 212–13
systematic interpretation 156, 157, 158

target values (Air Quality Directive) 21, 29–30, 40, 42, 132–3
targeted action 152–3, 154
targets
climate change legislation 175–7
emissions reduction 173, 175–6, 182, 184
triple 20 approach 173, 175, 184
technical annexes 83
technology control dilemma 211, 230, 249
terrestrial ecosystems 167–8
tightening of emission permits 138–9
traceability of nanomaterials 215, 219
transboundary pollution 161
transboundary river basins 203–4
transparency 215, 231
Treaty on the Functioning of the European Union (TFEU) 53, 71, 102
defining a directive 50–52
EU environmental competence 198, 205–6, 241–2
no requirement for internal integration 95–7
trends, reversal of 159, 168–70, 171
triple 20 approach 173, 175, 184
Tulkens, H. 105

unanimity voting 242
uncertainty about legal consequences 140–1
unconditional and sufficiently precise provisions 17–18, 38–9
United Kingdom (UK)
Climate Change Act 2008 184
Emission Performance Standards on coal-fired power plants 102–3
United Nations Framework Convention on Climate Change 194
volume-based registration requirement 221
voluntary reporting systems 214, 217
waste disposal 74–5
waste incineration plants 149–50
Waste Electrical and Electronic Equipment (WEEE) Directive 226
Waste Framework Directive 74, 78–9, 81, 85
waterbody status 60–61, 130, 147, 158, 159–63, 171
see also groundwater status; surface water status
Water Framework Directive (WFD) 6, 16, 48, 59–62, 67, 68, 82, 85, 204, 248, 253
Annex V 127, 162
Article 4 126, 146–72, 253
assessment of flexibility and procedural elements in 38–45
Common Implementation Strategy 61, 238–9
comprehensive law system 244–6
derogations 35–6, 129–30
environmental quality standards 118, 119
Governance Mode Directive 16, 21, 23, 29–38
implementation in the Netherlands 141
instruments and measures 36–8
main provisions 29–35
programmatic approach 125, 126–32, 140, 143, 241
core elements 130–2
standard setting 21, 30–34, 41, 60–61, 126–9
waterbed effect 184–6
