**Preface and acknowledgements** x  

1. Gross substitutes versus marginal substitutes: implications for market definition in the postal sector  
   *Timothy J. Brennan and Michael A. Crew*  
   1  
2. A business model for USPS  
   *Michael A. Crew and R. Richard Geddes*  
   16  
3. Is demand for market-dominant products of the United States Postal Service becoming more own-price elastic?  
   *A. Thomas Bozzo, Kristen L. Capogrossi, B. Kelly Eakin, John Pickett and Mithuna Srinivasan*  
   28  
4. Are US postal price elasticities changing?  
   *Margaret M. Cigno, Katalin K. Clendenin and Edward S. Pearsall*  
   46  
5. Estimating postal demand elasticities using the PCAIDS method  
   *Gregory Swinand and Hugh Hennessy*  
   65  
6. Pricing of delivery services in the e-commerce sector  
   *Claire Borsenberger, Helmuth Cremer, Philippe De Donder, Denis Joram and Sébastien Lécou*  
   75  
7. The regulatory treatment of end-to-end competition in the UK postal sector  
   *Richard Eccles*  
   93  
8. The proposed directive on the award of concession contracts: implications for USO entrustment and compensation  
   *Alessandra Fratini*  
   106  
9. Application of EU competition law in the postal sector: overview of recent cases  
   *Damien Geradin and Christos Malamataris*  
   116  
10. Re-regulation for parcel delivery in the e-commerce context?  
    *Joost Vantomme*  
    131  
11. Delivering the goods to households: would further regulation help or hinder?  
    *John Hearn*  
    146  
12. The ‘national champion’ approach to postal operators: the case of the Netherlands  
    *Benjamin Gough*  
    161  
13. On alternative USO financing mechanisms for the US postal market  
    *Michael D. Bradley, Jeff Colvin and Mary K. Perkins*  
    174
