Frank Maes

Frank Maes is Professor in the Department of Public International Law at the Faculty of Law of Ghent University (Belgium) and Director of 'research' in the Maritime Institute of the same department. He teaches inter alia international and European environmental law, environmental legislation and protections of oceans and seas. His publications are mainly in the field of marine environmental law and policy. His research interests are the protection of the marine environment, fisheries, shipping, maritime spatial planning, climate change and environmental governance.

An Cliquet

An Cliquet is a Law Professor at Ghent University in Belgium. She teaches several courses on international and European biodiversity law. Her research is situated in the field of international, European and national biodiversity law and policy. Specific fields of interests in her research are European nature conservation law, gender and biodiversity, marine nature conservation, ecological restoration, ecological refugees, REDD+ and a rights-based approach to conservation of protected areas.

Willemien du Plessis

Willemien du Plessis is a Professor at the Faculty of Law, North-West University (Potchefstroom Campus), South Africa where she is currently the Director of the Research Unit 'Development in the South African Constitutional State'. She is also co-chair of the Research Committee of the IUCN Academy of Environmental Law. She serves on the editorial board of various journals and publishes in national and international journals. She teaches environmental law, land law and legal history. Her research interests are environmental law and land law.

Heather McLeod-Kilmurray

Heather McLeod-Kilmurray is Professor at the Environmental Law Faculty of the University of Ottawa, Canada. She teaches environmental law, torts, legal research and writing, administrative law and foundations of common law. Her primary research interests are in the areas of environmental law, legal process, legal principles and environmental ethics, ecofeminism, administrative law and tort law. She has recently written on the issue of GM drift, from the perspective of class action litigation, and is currently analyzing this problem from the ecofeminist perspective.
