**Introduction**

1. Copyright harmonization: The age of innocence?  
2. The topicality of originality to EU copyright discourse  
3. Scope and aim of this contribution  
4. Methodology

1. The challenges of EU copyright: ‘United in Diversity’ – Does it work?

Section I

1. The early days of European integration: IP rights and the internal market
2. The emergence of copyright as a European issue
   2.1 The 1988 Green Paper
3. Harmonization through the 1990s
4. Harmonization through the 2000s
5. Towards full copyright harmonization?
   5.1 The legacy of the 2000s
6. The debate in 2010–2013: The internal market, the role of academia and EU legislation
   6.1 The Monti Report
   6.2 The Single Market Act
   6.3 The 2011 Commission’s blueprint
   6.4 Full harmonization is on its way (via licensing?)
7. Why the EU copyright is not just about copyright

Section II

1. The structural character of copyright harmonization
Originality in EU copyright

2. Originality as a policy tool: Shaping the breadth of protection

Section I
1. On creativity, authorship and originality
2. Difficulties in defining originality
3. Originality in EU reform policy: The invisible man
4. The 'author's own intellectual creation' standard in the Software, Database and Term Directives

Section II
1. Following the originality brick road in the US
   1.1 The ‘originality’ of Feist
   1.2 Did Feist raise the bar of protection?
   1.3 The unveiled story of originality
   1.4 Originality as creativity
   1.5 Originality as the market value of a work
2. Originality in UK copyright: a tale of two cities
   2.1 Originality over time: Hard times
   2.2 UK and EU originality: Great expectations?
   2.3 Traditionally intended originality: The old curiosity shop

Conclusion

3. Originality in a work, or a work of originality: The effects of the Infopaq decision

1. Recalling the debate on copyright in 2010
2. A different approach
3. Precedent in the CJEU
4. The Infopaq decision: a coup de main?
   4.1 Facts and questions referred to the CJEU
   4.2 The InfoSoc Directive and a harmonized concept of originality
   4.3 Substantial implications of the Infopaq decision
5. Applying Infopaq: the originality requirement gets a new shape in UK courts
   5.1 From a quantitative to a qualitative test
   5.2 Proudman J’s views in Meltwater do not melt away before the Court of Appeal
   5.3 The importance of Meltwater
6. The CJEU goes on: The Bezpečnostní softwarová asociace decision
   6.1 Facts and questions referred to the CJEU
   6.2 Originality under the InfoSoc Directive
   6.3 A one-size-fits-all rule for originality and copyright assessment
7. The Football Dataco reference
   Conclusion
4. The CJEU goes ahead: The decisions in Murphy, Painer, Football Dataco and SAS
   1. Murphy: On TV decoders, football matches and the internal market
      1.1 Background to the cases: The exclusive licence system
      1.2 Background to the cases: The breach to market segmentation of licences
      1.3 IP at the crossroads with treaty freedoms
      1.4 Restrictions imposed by IPRs: Precondition is that the work is protectable
      1.5 Is Murphy’s originality at odds with Berne?
      1.6 What protection for sporting events then?
      1.7 Is unfair competition the path to follow?
      1.8 The responses of the High Court and Court of Appeal
   2. Painer: No photos deserve more protection than others
      2.1 Facts and questions referred to the CJEU
      2.2 The CJEU follows Infopaq and goes even further ...
      2.3 … Clarifying the meaning of originality …
      2.4 … Playing a requiem for subject-matter categorization, and …
      2.5 Making it clear that copyright is not a story of the prince and the pauper
   3. Football Dataco: Farewell to the arms (of UK copyright)?
      3.1 Background to the case
      3.2 Copyright in databases: What type of originality? AG Mengozzi explains
      3.3 An intellectual creation in not just labour and skill
      3.4 There is little to do if copyright cannot do
      3.5 The decision of the CJEU
         3.5.1 The requirements for copyright protection under the Database Directive
