

Subject index

- accumulation of capital 3, 153, 162, 167, 260
accessibility 8, 35, 53, 84, 266
adiabatic approximation 260
advantage, comparative 11, 25, 175, 202, 255
agent-based models 146, 172
aggregation of capital 3, 148, 149, 156, 158
agricultural land 27, 29
algorithmic complexity 258, 259, 260, 263, 268
American city hierarchy 41, 42
Amsterdam 185, 199, 266
arbitrage pricing 150, 156, 181
asset pricing 146, 172
Asia 44, 94
autarchy 10, 11, 12
- banks 22, 72, 171, 199, 200
bacteria 57, 63, 88
Bayesian theory 150
Beckmann model of location and trade 30, 32, 166
behavior 98, 127, 152, 220
bifurcation 64, 65, 67, 74, 177, 178, 189
Big Players 132
bonding and bridging social capital 236, 237
bounded rationality 191
business cycle 7, 62, 63, 68, 71, 132, 220, 229
- capital portfolio 145
capital value 1, 13, 18, 127, 172
chaos 6, 81, 151, 152
Cobb-Douglas production function 3
cobweb model 131, 140, 151, 155
cognitive complexity 264
communication 161, 167, 168, 251
complex 1, 71, 81, 252
continuous 6, 25, 26, 32
creative destruction 70, 159, 186, 206
creativity 95, 162, 251, 255, 262
critical link 176, 177, 183, 189, 198, 199, 205
cusp 65, 74
- decision making 23, 141, 155, 163, 188, 190, 230, 269
discrete time or space 4, 11, 24, 121, 152
divergence and trade
durability of capital 112, 211
duration of production 27, 106, 132
- education 64, 88, 97, 102, 106, 130, 163, 164, 193, 213, 214, 223, 240, 249, 250, 253, 255, 274
El Farol model 142, 148
entrepreneurial judgment 134, 135, 138, 219
entrepreneurship 24, 69, 127, 172
existence of general economic equilibrium 112, 159, 160, 166, 272
expectations 2, 13, 128, 140, 156
- fast and slow processes 7, 8, 166, 170, 235
feedback 59, 61, 63, 64, 82, 143, 151, 216, 273
formal and informal institutions 8, 157, 164, 192, 235, 248
fractals 75, 76, 77, 79, 80, 150, 152
- gradient law 28, 30, 54, 166, 191, 213
growth theory 3, 4, 112, 153, 161
general economic equilibrium 54, 65, 159, 161, 166, 274

- Hanseatic League 179, 182, 183
 hedonic price 212, 213, 215, 218
 housing affordability 227, 228, 229, 231
- Industrial Revolution 189, 201, 207, 239
 information 144, 168, 172, 207, 251
 infrastructure 8, 36, 73, 74, 95, 159, 169
 innovation 58, 68, 96, 118, 243, 256
 inter-jurisdictional competition 194, 196, 197, 198, 199
 interpersonal trust 236, 240, 244, 246, 248
- Knightian uncertainty 133, 134, 140, 220
- land use 10, 27, 29, 30, 32, 46, 84, 227, 229
 learning 131, 142, 143, 148, 155, 172
 life cycle hypothesis 98, 99, 100
 location and trade 29, 30, 32, 118, 120, 121
 logistical revolution 174, 179, 180, 185, 189, 197, 199, 201, 205, 276
- materialism 81
 Marxian economics 17, 95, 106, 149, 223, 254
 mechanisms in economics 61, 81, 143, 166, 169, 206
 multi-attribute good 213
 multiple equilibria 62, 63, 64, 272
- optimal harvesting 117, 127
- post-materialism 95, 242
 property rights 71, 134, 135, 138, 165, 193, 195, 230, 253, 254
- rank-size distribution 33, 34, 35, 36
 real estate capital 6, 149, 156, 209, 210, 212, 213, 214, 219, 224, 228
 research and development 1, 14, 74, 88, 118, 136, 139, 162, 208, 250, 254, 255, 257, 262, 264, 265, 269
 risk 2, 18, 23, 89, 108, 128, 133, 134, 144, 146, 149, 150, 156, 180, 264
- saddle point 111, 113, 114, 275
 scientific knowledge 35, 53, 88, 162, 252, 253, 255, 260, 275
 spontaneous order 81, 82, 172
 stability and instability 6, 24, 32, 64, 66, 127, 172, 271
 system constraint 220, 221, 222
- tacit knowledge 251, 252, 253, 258, 259
 tatōnnement 2
 territorial public good 222, 223, 224
 tolerance 241–8
 transaction cost 26, 119, 153, 175, 179, 190, 199, 202, 222, 240, 244, 245
 transport cost 11, 12, 27, 31, 32, 118, 119, 121, 175, 190, 203, 204
 trust 195, 196, 197, 198, 236, 240, 243, 246, 248
- uniqueness of general equilibrium 32, 128, 160, 272
- variational inequality 26, 121, 273
- working time 101, 102, 103, 111
