

Figures

1.1	Knowledge conversion modes by Nonaka and Takeuchi (1995)	6
1.2	Knowledge spiral	8
1.3	The classifications of intellectual work	11
2.1	Circulation of collective knowledge	46
3.1	Circulation of shared knowledge: Toyota production system	62
3.2	Improvement suggestion process by small group activity	69
4.1	Structural outline of the attraction of “The Knowledge Cluster Initiative”	87
4.2	Structural outline of spinoffs in a cluster	87
4.3	Creation of university-launched venture	91
4.4	Circulation of symbiotic knowledge: case example of industry–university collaboration	100
5.1	Cluster types	120
5.2	The locations of the factories of Toyota and Denso around Toyotashi, Aichi	126
5.3	The locations of the factories of Daimler and Bosch around Stuttgart, Germany	127
5.4	Circulation of local knowledge: a cluster formation case example	133
6.1	Illustration of the logistic curve	146
6.2	Graph capturing the differences found in the logistic curves	147
6.3	Transitions in the Internet population diffusion rate	148
6.4	Differences in the increase of the Internet population	149
6.5	Circulation of common knowledge: an Internet case example	159
