

# Acknowledgments

---

This book is the result of the deep thought, hard work and good will of many people at our respective campuses and communities. We thank you all, and look forward to continued exploration of this important topic.

We would like to especially acknowledge the contributions of Dr. Richard Cuthbertson of the Said Business School of the University of Oxford. Richard has been our long-time research partner, and has made invaluable contributions in both the innovation theory and analysis of research findings at the heart of this book.

We also give our thanks to the Research Council of Norway for their generous support of Project #187941, 'Value Driven Service Innovation', to Borg Innovation, and to Accenture Norway.

At the University of California, we extend our particular thanks to Clara Berridge, Professor Andrew Scharlach, David Lindeman, Alic Chen, and our supportive colleagues at the Center for Information Technology Research in the Interest of Society (CITRIS).

Finally, last on the page but first in our hearts, we thank our families for their understanding, patience and support throughout this process.
