study
  aims 189–90
Entrepreneurial process and social networks

- analysis 199–206
- case study 196–7
- methodology and design 197–9
- organizational structure element 191, 208–9
- overview 13–14, 209–10
- competitiveness, see firm competitiveness
- connectedness 221, 225–6
- context, see family firms; firm competitiveness; social network structures of nascent entrepreneurs; ubuntu in family businesses
- control-based entrepreneurship 303–29
- agent-based computer simulations 311–12
- artefact 312–13, 316
  - fitness landscape 314–15
- effectual agent 313
- end customer 313–14
- mechanics 315–21
  - agent behaviours 315–16
  - artefact transformation 318
  - end customer access to fitness landscape 318
  - initial position impact 327
  - negotiation process 316–18
  - network shape measures 319–21, 327
- social network 315
- artefacts 307, 308–9, 312–18
- effectuation 304–6
  - as entrepreneurial expert decision logic 305–6
  - four principles of 305
  - as non-predictive logic 304
  - use (known processes and behaviours) 306–8
  - artefact transformation 308–9
  - pre-commitment negotiation 308
  - pre-commitment/state of artefact 307
  - relay of information 307
- literature review 304–11
  - performance impact of position 309–10
  - performance impact of shape 310–11
- overview 18–20
- research limitations and future avenues 329–30
- research results and implications 321–5
  - development of measures over time 324–5
  - performance impact of constraint and structural holes 328–9
  - performance impact of efficiency 328
  - performance impact of position 322–3, 325–6
  - final position 326
  - initial position 327
  - performance impact of shape 323–4, 327
  - coordination versus cooperation 13–14, 190, 193–5
  - competition and 201
  - dyadic coordination and resources 206–7
  - organizational consequences 208–9
- cultural values 266

Democratic Republic of Congo 279–97
- dynamic perspectives 30–31, 337
- network imprinting 116, 123
- see also actor-network theory
- coordination versus cooperation 13–14, 190, 193–5
- competition and 201
- dyadic coordination and resources 206–7
- organizational consequences 208–9

Dynamic social network study (Netherlands) 49–73
- extant studies (instrumental and dynamic views) 51–7
- dynamic view 53–7
- instrumental view 51–3
- location/’everydayness’ 49–50
- social capital benefits 52–3
- overview 6–7, 70–72
- resources 52, 54
- study aims 50–51
- analytical strategy 62
- delineation (name-generating questions) 58–60
- dependent variables 60–61
- independent variables 61
