About the authors

**Peter J. Glynn** PhD (Bond University, Queensland), CPA, FCIS is an honorary adjunct Research Fellow at Bond University. His professional background is in industry association management, with specific expertise in labour relations and labour market management. Prior to commencing doctoral studies he was engaged by the International Labour Organization and the International Organisation of Employers in the development of policies and tools to guide the implementation of labour market strategies to manage the impacts of climate change policies. His doctoral research addressed the question of how industry (employers’ organizations and trade unions) can ensure the impacts on employment and the workplace are considered in climate policy.

**Timothy Cadman** BA (Hons) MA (Cantab) PhD (Tasmania) is a Research Fellow in the Institute for Ethics, Governance and Law at Griffith University, Queensland, Australia. He is also a Senior Research Fellow in the international Earth Systems Governance Project and an Adjunct Lecturer and Member of the Australian Centre for Sustainable Business and Development at the University of Southern Queensland. He specializes in the governance of sustainable development, climate change, natural resource management including forestry, and responsible investment.

**Tek Narayan Maraseni** BSc (Tribhuwan) MSc (Asian Institute of Technology, Thailand) PhD (University of Southern Queensland) has over 20 years work experience in the areas of climate change adaptation, mitigation and greenhouse gas emissions accounting/modelling research in different countries including Nepal, Thailand, Australia and China. He has produced over 100 publications including two books in the last 10 years. His research work has been recognized through several national and international awards, grants and fellowships.
