Maria Brincker is an Assistant Professor of Philosophy at the University of Massachusetts, Boston. She has published on a range of topics having to do with concrete aspects of our sensorimotor embodiment and our cultural embeddedness, and how these dynamically shape our minds and agency. She holds a PhD from the CUNY Graduate Center and was previously an Arts and Neuroscience Fellow at the Italian Academy at Columbia University.

Angela Daly is Vice Chancellor's Research Fellow in Queensland University of Technology's Faculty of Law and a Research Associate in the Tilburg Institute for Law, Technology and Society (TILT), the Netherlands. She is a comparative socio-legal scholar of technology and is the author of *Socio-Legal Aspects of the 3D Printing Revolution* (2016) and *Private Power, Online Information Flows and EU Law: Mind the Gap* (2016). She holds a PhD in Law from the European University Institute, and previously was Postdoctoral Research Fellow in Media and Communications Law at the Swinburne Institute for Social Research.

A. Michael Fromkin, the Laurie Silvers and Mitchell Rubenstein Distinguished Professor of Law, received an MPhil. degree from Cambridge University in 1984, and a JD from Yale Law School in 1987. He clerked for Judge Stephen F. Williams of the US Court of Appeals for the District of Columbia Circuit and for John F. Grady, chief judge of the Northern District of Illinois. Professor Fromkin joined the University of Miami faculty after working in the London office of the Washington, DC, firm of Wilmer, Cutler & Pickering.

Maša Galič is a PhD researcher at the Tilburg Institute for Law, Technology and Society (TILT), the Netherlands. Her academic research primarily focuses on the right to privacy in the context of data-driven surveillance of physical public space. She was awarded the VIE prize by the Dutch Association for Intellectual Property for the best publication by a young scholar enhancing the understanding of IPR in the Netherlands in 2015/2016.

Julia M. Hildebrand is a doctoral candidate in Communication, Culture, and Media at Drexel University in Philadelphia. She holds an MA in Comparative Media Studies from the University of Regensburg, Germany. For her dissertation, she explores the aerial views obtained with consumer drones and the polarizing discourses surrounding the practice. Also working at Drexel's Center for Mobilities Research and Policy, she positions her research at the intersections of critical media studies and mobilities theory.

Meg Leta Jones is an Assistant Professor in the Communication, Culture and Technology program at Georgetown University where she researches rules and technological change with a focus on privacy, data protection, and automation in information and communication technologies. She is also an affiliate faculty member of the Science, Technology, and International Affairs program at Georgetown's School of Foreign Service, the Center for Privacy and Technology at Georgetown Law Center, and the Brussels Privacy Hub at Vrije Universiteit Brussel.

Bert-Jaap Koops is Professor of Regulation and Technology at the Tilburg Institute for Law, Technology and Society (TILT), the Netherlands. His main research fields are cybercrime, cyber-investigation, privacy and data protection. He is also interested in 'code as law' and regulatory implications of human enhancement, robotics, and neuroscience. In the 2016/17 academic year, he was Distinguished Lorentz Fellow at the Netherlands Institute for Advanced Study (NIAS).

Karsten Mause is Assistant Professor of Political Economy in the Department of Political Science at the University of Muenster, Germany. His research focuses on the political economy of governance and various other subfields of political economy.

Michael Nagenborg holds a doctoral degree in philosophy (University of Karlsruhe, Germany). His doctoral thesis was on Privacy and ICT. From 2007 to 2013 he was a member of the Research Centre for Security Ethics at the International Centre for Ethics in the Sciences and Humanities (University of Tübingen, Germany). He was also a member of the management committee of the COST action Living in Surveillance Societies (LiSS) and a board member of the International Society for Ethics and Information Technologies (2014–2016).

Bryce Clayton Newell, JD, PhD, is an Assistant Professor at the School of Information Science at the University of Kentucky (United States).

Albert E. Scherr is a nationally recognized authority on forensic DNA evidence. Since 1990, he has served as the lead attorney in numerous

pretrial hearings in homicide, robbery and sexual assault cases to determine the admissibility of forensic DNA evidence. He was the principal investigator on a two-year NIH grant to study genetics, police investigation and Constitutional privacy. He also co-designed and taught a national model, NIH-funded Summer Faculty Institute at Dartmouth that educates undergraduate faculty from around the country in the ethical, legal and social issues of the Human Genome Project. He has lectured to judges, attorneys, educators and others regionally and nationally on a variety of genetics and law issues.

Tjerk Timan is Strategy and Policy Researcher at TNO; before, he was a Postdoctoral Researcher at the Tilburg Institute for Law, Technology and Society (TILT), the Netherlands. His research areas include surveillance, privacy, regulation of technology and human-technology interaction. His current work focuses on data science, privacy and technology forecasting.

Stephen B. Zhao is a Senior Research Fellow at the STeP (Security, Technology and e-Privacy) Research Group, Faculty of Law, University of Groningen, the Netherlands. Trained as a legal philosopher, his research fields include comparative data and privacy protection law, comparative defamation law, Internet governance, Rule of Law and human rights.
