

# Acknowledgments

---

This book would not have been possible without the tireless efforts of the staff of the U.S. Copyright Office and the House Judiciary Committee who spearheaded the effort to undertake the most comprehensive examination of U.S. copyright law in more than four decades. Particular thanks to former Register of Copyrights, Maria Pallante, for her landmark lecture, *The Next Great Copyright Act*, and her team at the Copyright Office (of which I had the privilege of briefly being a member) for further developing many of the ideas it conveyed through the Office's various studies and reports on key issues confronting the copyright system. Thanks also to the current Register, Karyn Temple, and her senior team, who continue to advance many of the ideas developed during the copyright review process.

Thank you as well to the hundreds of stakeholders who submitted written materials or testified, either before Congress or in the Copyright Office's various proceedings, during the course of the review. The thorough record developed by Congress and the Copyright Office to which you all contributed served as the principal source for this book.

I also owe a debt of gratitude to those who reviewed the manuscript, or portions thereof, throughout the writing process, including Zehra Betul Ayranci, Jacqueline Charlesworth, Elizabeth Townsend Gard, Terry Hart, Ryan Kennedy, Keith Kupferschmid, and Michael O'Leary. Thanks also to the three anonymous reviewers who offered feedback on the proposal for this book and early drafts of several chapters.

Thank you to Stephen Gutierrez, Megan Hylton, Karen Jones, Caroline Kracunas, Sue Sharp, Fiona Todd, Katia Williford, Sabrina Zaher, and the rest of the team at Edward Elgar Publishing who helped bring this book to fruition. Thank you also to my copy editor, Glynis Dyson, for her eagle-eyed review of the manuscript.

Finally, a big thank you to my partner Ryan, without whose support this project would never have been possible.

Notwithstanding all the help and support of the people listed here, this book is fundamentally my own work, and all errors, omissions, and the like are mine alone. The views and opinions expressed in this book are also mine alone and are not necessarily the views of any employer, client, customer, or other affiliated entity, past or present.
