About the authors

Dr Anna Korppoo is a Research Professor at the Fridtjof Nansen Institute and holds a PhD in Energy Policy from Imperial College London (2007). She has been working on Russian climate change policies and politics at the national and international levels since 2000, and speaks Russian. She has followed Russia's role in international climate negotiations and has studied the implementation of Russia's domestic policies to reduce emissions. Anna is the author of numerous peer-reviewed journal articles, book chapters and policy briefs, and two books.

Iselin Stensdal is a Research Fellow and a PhD candidate at the Fridtjof Nansen Institute. She holds a master's degree in Chinese Studies from the University of Oslo; she speaks Chinese and has fieldwork experience from China. Her research focuses on Chinese climate policies, internationally and domestically, as well as Chinese interests in the Arctic. Iselin is the author of numerous peer-reviewed journal articles and book chapters.

Dr Marius Korsnes is a Researcher at the Department of Interdisciplinary Studies of Culture at the Norwegian University of Science and Technology (NTNU). He has a PhD in Science, Technology and Society (STS) from NTNU. His MA, PhD and postdoctoral work focused on the role of wind and solar energy technologies in China's sustainability transition. Marius has a basic knowledge of the Chinese language and has lived in China for two years in connection with his research. Marius has published in quality international journals and is the author of *Wind and Solar Energy Transition in China* (Routledge, 2020).
