

List of figures

1.1	Social benefits from charities	12
1.2	Social costs of charities	17
2.1	Importance of charities	33
2.2	Attitudes towards donating	34
2.3	Attitudes towards charitable donations: scope	38
2.4	Attitudes towards charitable donations: foresight	39
2.5	Attitudes towards charitable donations: commitment	40
2.6	Attitudes towards volunteering: motive	44
2.7	Alternatives to volunteering	46
2.8	WTP distribution in CV_{ALL} and CV_{HH}	50
3.1	Sources of income	80
3.2	Current expenditure breakdown	81
3.3	Percentage frequency distribution of current weekly income and expenditure	81
3.4	Duration of homelessness	83
3.5	Percentage of respondents using general hostel facilities	84
3.6	Percentage of respondents using counselling and support services	85
3.7	Satisfaction with the quality of general hostel facilities and services	86
3.8	Satisfaction with the quality of hostel counselling and support services	87
3.9	Frequency distribution of housing preferences across different time horizons	88
3.10	Answers to the question ‘Would you like this idea to actually happen?’	89
3.11	Distribution of WTA compensation amounts	92
3.12	Predicted expenditure breakdown after the proposed scenario	96
4.1	Breakdown of differences between valuation methodologies for males in 1993	111
4.2	Breakdown of differences between valuation methodologies for females in 1993	111
6.1	Percentage frequency distribution of tax price	134
6.2	Percentage frequency distribution of efficiency price	136

6.3	Percentage frequency distribution of time-value price	137
7.1	Percentage frequency distribution of average donations for different fundraising methods	157
7.2	Marginal effect of an approach on the probability of a gift against number of approaches	164
8.1	Positioning of some of the UK's major environmental groups in characteristics space	173
8.2	Fitted probability of group membership against continuous explanatory variables	178
8.3	Marginal cost–revenue ratio against optimal number of targeting variables for the ‘AND’ strategy	184
