# Tables

1.3 Countries in transition: initial conditions, 1989–1991  
1.4 Structural indicators in transition economies  
3.1 Regression results  
3.2 Robustness test for commercial energy use  
4.1 Historical levels of GDP in Central and Western Europe  
4.2 GDP per capita in the EU and the TEs, 1998  
4.3 Estimates of GDP per capita after adjusting for the unofficial economy, 1998  
4.4 Growth of GDP per capita, TEs and EU economies  
4.5 Regional GDP and growth  
4.6 Share of each country in total output of TEs  
4.7 Number of years to close to within 75 per cent of EU-14 income  
4.8 Years required to reach 75 per cent of EU income  
4.9 Reform indexes at the start of transition  
4.10 Regressions of output density, population density and GDP per capita on geographic variables and urbanization  
4.11 Geography indicators  
4.12 Output: actual and long-run potential  
4.13 Broad growth patterns for transition countries  
4.14 Growth rates of positive-growth countries and year of turnaround  
4.15 Regressions explaining choice of reform  
4.16 Regressions explaining growth in transition countries since the start of reform  
4.17 Determinants of growth rates of transition countries that have stopped the output decline  
4A.1 Data used in regressions  
5.1 Key data and estimation results for 20 countries, second half of twentieth century  
7.1 Monetization in transition countries, 1997
8.1 Structure of gross value added 142
8.2 Shares in gross value added in the manufacturing industry 143
9.1 Percentage deviations of residuals between actual and fitted values of the USD in terms of Central European currencies, January 1996–October 1998 series 154
9.2 Corrections due to the Russian crisis: pre-crisis forecasts versus actual data for 1998 157
9.3 Ratios of M2 money to foreign exchange reserves 163
10.1 Real GDP in Eastern Europe, the Baltics and the CIS compared with 1989 172
10.2 Unemployment rates, selected transition countries 173
10.4 The effectiveness of poverty relief 184
10.5 Public pension spending in the CEE and the Baltic countries, 1989 and 1997 186
10.6 Age dependency and system dependency ratios, 1996, selected countries 187
10.7 Prerequisites for pension reform 201
11.1 Income distribution: Gini coefficient 222
11.2 Unemployment benefits in CEE countries 226
11.3 Assessment of socialistic education 231
11.4 Public expenditure on education in CEE countries as a share of GDP 232
13.1 Features of multipillar proposals in selected TEs 259
13.2 Progress of pension reform in 25 economies 265
15.1 Choices in designing different tiers of pension schemes 280
