

Index

- Agenda 21 xi, 13, 79, 80, 325, 336, 338
Analytical hierarchical process (AHP)
120, 125, 126, 130
Allocation of resources 22, 116, 296,
336
Allocative efficiency 261
Applied economic model 332
Aquaculture 247, 249, 250, 251, 254,
254–9, 261–3
Asset ownership 294, 306, 309, 310,
313, 314
Average consumption 193, 308, 309,
396
Average Marginal Revenue Product
296
Average wage rate 296, 306, 308,
313–15
Base run 22–4, 178, 306–9, 312–13, 316
Base scenario 151–3, 156–7
Behaviour validity 141
Biological systems 16
Biophysical constraints 13, 326
Brainstorming 80–84, 89, 92–4, 330
Brundtland Report 13–14, 26, 122,
191–2
Bushfire 80, 85–8, 90, 94, 330
Capital improvement plan 279
Capital intensity 293
Capitalist 62–3, 289, 292–300, 302,
303–18, 328, 336
Capitalist sector 289, 292–5, 300, 302,
303–11, 313–15, 317, 336
Catskill 170, 172, 173–4, 176, 178, 180,
182, 185, 188–9
Cause-effect relationships 138, 220
CDSS session 84–7, 90–93
CO₂ emissions 135–6, 139–40, 143,
148–50, 152–4, 156–7, 160, 162,
164–5
Cognitive maps 276
Communities 14, 26, 29, 169, 170, 173,
175–6, 178, 189, 271–2, 332
Comparative policy analysis 311
Competitive advantage 122
Competitiveness 117, 317
Complex process 129, 292, 339
Complex systems 14, 169–70, 176,
216–17, 243
Conceptual models 5–8
Conceptual overview 5–6, 8, 10, 339
Conservation xi, 66, 67, 69–72, 119,
122, 136, 171, 174, 177, 183, 185,
193, 195–7, 202, 207, 215, 217,
219, 224, 231, 232, 233, 236, 239,
241–3, 254, 328, 332, 334
Conservation Loop 177, 332
Consumption 16–18, 22, 24–5, 30–37,
40–49, 51–3, 55, 58, 59, 63, 116,
139, 146, 152, 158, 160, 170–71,
177–80, 183, 191–203, 206–11,
216, 218, 224, 235, 238–42, 255,
289, 291–2, 295–6, 299–300,
308–9, 314, 317, 327, 331–3, 336
Context of sustainability 6–8, 10–11
Control of environmental use 263
Cooperatives policy 309–10, 315
Corridors of sustainability 18
Creative approach 80
Creative Decision Support system 81,
94, 330
Creative ideas 81
Criterion of economic efficiency 194
Cross-efficiency models 100, 107
Cultural factors 328
Data Envelopment Analysis 97, 99,
101, 103, 105, 107, 109, 111, 330
Decisions makers 15, 17, 81–3, 85, 95,
117, 136, 303
Decision making xi, 4–5, 10–11, 13, 64,
66–7, 69, 79–83, 95, 98, 103, 105,
109, 111, 115, 117, 218, 242–3,
271–9, 281–7, 325, 329–30, 333–40
M. A. Quaddus and M. A.B. Siddique – 9781845642354

- Decision-making process xi, 4, 81–2, 218, 242–3, 276, 325, 329, 333–4, 337–8
- Decision Support Systems (DSS) xi, 5–11, 81, 125, 274–7, 279, 284–7, 325–7, 329, 331, 333, 335, 337–41
- Decision support framework xii, 116
- Decision support tool 10, 80, 120, 329
- Deep ecologists 67–70, 72–3, 329
- Demand for water 203, 206–8, 237, 333
- Design 5, 14, 80–81, 123, 136, 150, 164, 200, 279–80, 284, 286, 289, 292–3, 301, 308, 330–31
- Development policies 81, 254, 302, 303, 317, 335
- Disaster 79–81, 83, 85–9, 91–5, 189, 329, 330
- Disaster emergency planning 86
- Disaster planning 79–81, 83, 85–9, 91–5, 329, 330
- Disaster Planning Scenario 85
- Disaster recovery management plan 81
- Dual economic system 289, 295, 297, 303, 311, 335
- Dual global economy 294
- Dual structure 290
- Dynamic hierarchical approach 13, 326
- Dynamic model 19, 23, 220, 223–4, 228–9, 234, 239, 241, 332
- Dynamic simulation 23, 136–8
- Dynamic system models 215–20, 229, 243, 333, 334
- Earth Summit 13, 34, 79
- Ecocentric values 67, 329
- Ecological stability 18, 21
- Economic Assessment of the Regulation of Spillovers 259
- Economic development 3, 13, 26, 63, 66, 70, 116, 173–5, 177, 192, 249, 263–4, 266, 271, 278, 284, 289–91, 294, 303, 318, 332, 335
- Economic dualism 259
- Economic growth 15, 20, 27, 30, 33, 36–7, 44, 49, 61, 64–5, 72, 120, 160, 186, 189, 192, 284, 289–92, 294–6, 306, 308, 310, 315, 317–18, 328, 332, 335–6
- Economic models 289
- Economic performance 292
- Economic rationalists 65
- Ecosystem 8, 13–14, 24, 67, 192, 271–7, 285, 326
- Ecosystem management 272–4, 277
- Ecosystems 4, 14–16, 19, 24, 67, 73, 215, 242, 271–2, 274–7, 282–3, 287, 335
- Ecosystems decision-making 272
- Elasticity of infrastructure 291
- Electronic Brainstorming 82–83, 93
- Energy Strategies for Sustainable Development 136, 160, 165
- Environment xi, 3–4, 7, 9, 11, 14, 16, 26, 29–30, 34, 50–51, 79–81, 84, 93–5, 97, 116, 118–19, 121, 135–40, 143, 150–54, 157, 159–60, 162–4, 176, 178, 189, 191–3, 200–201, 205, 215–16, 263–4, 271–3, 282–7, 294, 329, 331–2, 339–40
- Environmental conservation x, 70
- Environment and social dimension 3
- Environmental disaster 79, 81, 83, 85, 87, 89, 91, 91, 93, 330
- Environmental disaster planning 79, 81, 83, 85, 87, 89, 91, 93, 330
- Environmental externalities 217–18, 220, 228, 231, 241, 242–3, 253–4, 257–8, 262, 333
- Environmental Impact Assessment 119
- Environmental indicators 103, 215, 217, 243
- Environmental issues 4, 97, 104, 119–20, 192, 243, 271, 278, 287
- Environmental maintenance 116
- Environmental Management Plans 119
- Environmental modeling 215, 217–18, 243, 333
- Environmental protection 3, 119, 136, 163, 171, 174, 279
- Environmental Protection Agency 174, 279
- Environmental spillovers 249–54, 257–9, 261–4, 266, 334–5
- Environmentalists 80, 174, 329, 337, 339
- Environment-oriented 150–55, 160, 162
- Equilibrium models 296

- European Environment Agency 193, 200, 205
- Expenditure policy 309
- Expert Choice 125
- Extent of DSS 6–8, 10–11, 326, 339
- External information 82–84
- Externalities from aquaculture 254, 258
- Feedback loop 21, 31–2, 39, 45, 47–9, 55, 326
- Feedback mechanisms 176
- Feedback relationships 141
- Financial institutions 314, 317
- Fiscal policy 310–11
- Free trade 17, 19, 294
- Generic framework 115
