**Contributors**

**Scott J. Adams** is an Assistant Professor of Economics at the University of Wisconsin-Milwaukee. His research interests are in labor and health economics and applied econometrics. He has published his work in *Industrial Relations, Labour Economics, Contemporary Economic Policy* and the *Journal of Human Resources*. Adams received his PhD from Michigan State University.

**Lisa R. Anderson** is an Associate Professor of Economics at The College of William and Mary. Professor Anderson studies economic questions using laboratory experiments. Her published articles include experimental investigations of information cascades, agendas and strategic voting, and gender differences in generosity and risk aversion. In addition, she has published a number of papers on the pedagogical use of experiments. Anderson received her PhD in economics from the University of Virginia.

**M.V. Lee Badgett** is an Associate Professor of Economics and a faculty member of the Center for Public Policy and Administration at the University of Massachusetts, Amherst. Badgett is also the Research Director of the Institute for Gay and Lesbian Strategic Studies, a national think tank. Badgett’s primary field is labor economics. Her research focuses on race, gender and sexual orientation discrimination in the workplace and on gay family issues. She received her PhD from the University of California, Berkeley.

**Marjorie L. Baldwin** is a Professor in the School of Health Management and Policy at the W.P. Carey School of Business, Arizona State University. She is a member of the National Academy of Social Insurance. Baldwin is a health economist whose research interests focus on work disability, disability-related discrimination, and the costs and outcomes of work-related injuries. Professor Baldwin received her PhD from the Maxwell School at Syracuse University.

**Gary A. Dymski** is the Founding Director of the University of California Center, Sacramento (UCCS). Prior to his current directorship Dymski was Founding Director of the Edward J. Blakely Center for Sustainable Suburban Development and associate dean for Research and Graduate Studies in the University of California, Riverside’s College of Humanities, Arts and Social Sciences.
Sciences. Dymski was the Olin Research Fellow in Economic Studies at the Brookings Institution 1985–6 and received his PhD in economics from the University of Massachusetts, Amherst in 1987. He taught at the University of Southern California before joining the economics faculty at the University of California, Riverside, where he is currently on leave. Dymski has been an invited lecturer in 13 nations, and has been a visiting scholar at Tokyo University, the Bangladesh Institute for Development Studies, the Federal University of Rio de Janeiro and the University of São Paulo.

Roland G. Fryer is a Junior Fellow, Harvard Society of Fellows at Harvard University. He is a Faculty Research Fellow at the National Bureau of Economic Research. His research interests are in the areas of affirmative action, discrimination and social economics. He received his PhD from Pennsylvania State University.

Judith K. Hellerstein is Associate Professor of Economics at the University of Maryland, College Park. She is also a Faculty Associate of the Maryland Population Research Center and a Research Associate of the National Bureau of Economic Research. Her main area of research is labor economics and she also does research in health economics. She received her PhD from Harvard University.

Charles A. Holt is the A. Willis Robertson Professor of Political Economy at the University of Virginia. He is Co-founding Editor of the journal Experimental Economics and serves on the board of editors of the American Economic Review. To date, Holt has written and edited several books and over one hundred articles in experimental economics and related theory, on topics such as coordination, social dilemmas, rent seeking, public goods and games played only once. Holt received his PhD from Carnegie Mellon University.

Harry J. Holzer is Professor of Public Policy and Associate Dean of the Georgetown Public Policy Institute. He is a Senior Affiliate of the National Poverty Center at the University of Michigan, a National Fellow of the Program on Inequality and Social Policy at Harvard University and a Research Affiliate of the Institute for Research on Poverty at the University of Wisconsin at Madison. Prior to coming to Georgetown, Professor Holzer served as Chief Economist for the US Department of Labor. Professor Holzer’s research has focused primarily on the low-wage labor market, and particularly the problems of urban minority workers. In recent years he has focused on employer skill needs and hiring practices, as well as the employment problems of less educated young men. He received his PhD in economics from Harvard University.
William G. Johnson is a Professor in the School of Health Management and Policy and the Department of Economics at the W.P. Carey School of Business, Arizona State University. He is also the Director of the Center for Health Information and Research, located in the L. William Seidman Research Institute. Professor Johnson authored the first empirical studies of labor market discrimination against persons with disabilities and is the author or co-author of nearly every subsequent empirical study of the problem. He is a member of the National Academy of Social Insurance and the North American Spine Society. He serves on numerous boards, including the editorial board of The Spine Journal and is co-editor of the Journal of Disability Income and Work Injury Compensation. Johnson received his PhD in economics from Rutgers, The State University of New Jersey.

Philip Moss is a Professor of Regional Economics and Social Development at the University of Massachusetts Lowell. Moss works primarily on the impacts of structural change in the economy and within firms on the distribution of economic opportunity. He is particularly interested in opportunities for different race and gender groups, in the fate of low-wage workers and low-wage jobs, and in changing skill needs and skill development strategies of firms. He received his PhD in economics from Massachusetts Institute of Technology.

David Neumark is Professor of Economics at the University of California, Irvine. He is also a Senior Fellow of the Public Policy Institute of California and a Research Associate of the National Bureau of Economic Research. Neumark was previously Professor of Economics at Michigan State University. His areas of expertise include labor market discrimination, the economics of ageing and policy analysis on such issues as minimum and living wages. He received his PhD from Harvard University.

William M. Rodgers III is Professor of Public Policy at the Edward J. Bloustein School of Planning and Public Policy, Rutgers, The State University of New Jersey. He is also Chief Economist at the Heldrich Center for Workforce, also at Rutgers. Rodgers is a Senior Research Affiliate of the National Poverty Center, University of Michigan. Prior to coming to Rutgers, he served as Chief Economist at the US Department of Labor from 2000 to 2001, appointed to that position by Alexis Herman, US Secretary of Labor. His research examines issues in labor economics and the economics of social problems. He received his PhD from Harvard University.

Chris Tilly is Professor of Regional Economic and Social Development at the University of Massachusetts Lowell. He does research on low-wage jobs, inequality and community development, and recently expanded his research
agenda to include Mexico as well as the United States. Tilly received a joint PhD in economics and urban studies and planning from the Massachusetts Institute of Technology.

**Yana van der Meulen Rodgers** is Associate Professor of Women’s and Gender Studies, Rutgers University. Her research interests lie in the economics of gender, the economics of children and development economics. Recent work examines the effect of globalization on gender earnings inequality and the impact of protective labor market policies on women’s income. Professor Rodgers maintains a regular consulting relationship with the World Bank. She received her PhD from Harvard University.
