The texts one finds in every book have a history. The texts in this book have grown gradually over a number of years. Much of it was included in a PhD thesis (1999). Parts of it were published previously in a number of journals. Traces of articles in the *American Journal of Economics and Sociology* (1999), the *European Journal of the History of Economic Thought* (1997), and two articles in the *Journal of Economic Issues* (1997, 2002) can be found in this manuscript. I would like to thank the *American Journal of Economics and Sociology*, Routledge, and the Association for Evolutionary Economics (AFEE) for allowing me to include those contributions in this book, albeit in (sometimes substantially) revised form.
