

Acknowledgements

This book is the translation of an extended version of a special issue of *Revue d'économie politique* (*Connaissance et croyances en économie*, vol. 5, 2002).

The editor would like to thank Gilbert Abraham-Frois for his generous support and help during the preparation of the special issue of *Revue d'économie politique* and his permission for the translation of some of the papers in this volume; all the authors of the papers included in this book, not only for their contribution to it but also for the fruitful discussions which took place on several occasions during the preparation of the special issue and this volume.

Finally, this volume would not have had the slightest chance of completion without the help of Marianna Vintiadis, who not only translated several papers from French and revised all the contributions of the volume, but also helped the co-editors to avoid various wrong meanings and ill-founded arguments.
