
Acknowledgments

We are grateful to all the contributors to the *Handbook* but a particular expression of our gratitude goes to Marco Bellandi, Jacques De Bandt, Alfonso Gambardella, Paola Giuri, Andrea Goldstein, Sanjaya Lall, Jacques Pelkmans, Hans Schenk and Johan Willner, who provided comments and suggestions at various stages of the *Handbook* and/or read and commented on chapters from other contributors. David Ulph also provided useful suggestions for the *Handbook* at its earliest stages.

We dedicate this book to Sanjaya Lall, who unfortunately died in June 2005.
