

Subject index

The index focuses largely on subjects. Page numbers printed in **bold** refer to a major discussion of a given topic. Specific page numbers (e.g., 31–3) indicate that the discussion continues over the relevant pages; non-specific page numbers indicate several references on two (31f) or more (31ff) pages. A page number followed by ‘n’ refers to an endnote; ‘nn’ refers to two or more endnotes on a single page or successive pages. Entries refer to a relevant theme rather than a defined word, concept, or phrase
