

Tables

3.1	The number of listed companies and market capitalisation on the Shanghai and Shenzhen Stock Exchanges, 1990–2006	59
3.2	Main financial indicators for SOEs, 1998–2004	62
4.1	Changes in the urban labour market, 1994–2000	71
4.2	Mean annual income and components for the working-age urban population, 1995 and 1999	75
4.3	The determinants of earned income for employed individuals in urban China, 1995	78
4.4	The determinants of earned income for employed individuals in urban China, 1999	80
4.5	Average and median job tenure for select countries	84
4.6	Labour productivity in comparative perspective, 2005	95
4.7	Levels and growth rates of real labour productivity, 2000–2005	96
4.8	Average firm characteristics	97
4.9	Average firm characteristics per worker	98
4.10	Human capital of labour force	99
4.11	Determinants of labour productivity	101
5.1	Differences between entrepreneurs and non-entrepreneurs	113
5.2	Traits of urban versus migrant entrepreneurs	117
5.3	Determinants of self-employment, urban sample, multinomial logit regression	121
5.4	Determinants of self-employment as a second job, urban sample, multinomial logit regression	126
5.5	Determinants of self-employment, unemployed sub-sample, multinomial logit regression	130
7.1	Rule of law and GDP growth	156
7.2	Regulatory quality	157
7.3	Investor protection	158
7.4	Contract enforcement	159
7.5	Protection of property rights	159
7.6	Freedom from corruption	160
8.1	Patents and GDP per capita by province, 2002	179
8.2	Patents granted rate by province, selected years	180

8.3	Determinants of patents in China, 1991–2003	185
8.4	Determinants of patents in China by region, 1991–2003: Poisson (PQML) model	187
10.1	FDI by sector	215
