

Tables

2.1	Electronics and chemical industries in developed countries: number, size and R&D intensity of sample firms by sector and area of origin	59
2.2	Internal network of MNFs in the electronics and chemical industries in 1992, by sector and area of origin	60
2.3	External networks of MNFs in the electronics and chemical industries, by sector and area of origin, 1993–1997 (total number of operations)	61
2.4	Internal and external networks in the electronics and chemical industries: variables and data sources	62
2.5	Internal and external networks in the electronics and chemical industries: summary of results from econometric tests (negative binomial regressions)	64
3.1	Views on heterogeneity and international involvement	85
3.2	Internationalisation, innovation and productivity in Italy: distribution of the sample and basic statistics, 1996	92
3.3	International involvement and performances in Italy, 1996–2000	95
3.4	Differences in performances of Italian firms: the role of international involvement and innovative behaviour, 1996–2000	97
4.1	Heterogeneity across multinationals	112
4.2	Heterogeneity within multinationals	121
4.3	Differences across and within multinationals in Italy: descriptive statistics, 1996	124
4.4	Indicators of firm performance and innovative behaviour	125
4.5a	Differences in performance and innovation: foreign vs. domestic firms in Italy, 1996–2000	128
4.5b	Differences in performance and innovation: comparing foreign firms with domestic multinationals and with uni-national companies in Italy, 1996–2000	129
4.5c	Differences in performance and innovative behaviour, across and within multinationals in Italy, 1996–2000	130

4.6	Differences in performance and innovative behaviour, 1996–2000, by area of origin	132
4.7	Degree of multinationality, internal network spread and performance of foreign multinationals in Italy, 1996	135
5.1	A taxonomy of channels and types of externality	152
5.2	Spillover effects from multinational firms in Italy, 1993–2000: specification issues	160
5.3	Employment in foreign owned firms in a sample of French, Spanish and Italian manufacturing firms, by industry, average 1992–1997	168
5.4	The impact of sectoral foreign presence, technology gaps and absorptive capacity on domestic firms' productivity in France, Spain and Italy, 1992–1997: OLS regressions	172
6.1	Heterogeneity of foreign firms and productivity spillovers in Italy, 1993–2000: fixed-effects estimation	184
6.2	Heterogeneity of domestic firms and productivity spillovers in Italy, 1993–2000: fixed-effects estimation	188
A.1	Sectoral distribution of Italian firms in the CIS2 and in CIS-Elios	201
