

List of Figures

1.1	Time line for policy changes and the business cycle in Australia, 1991–2001	5
1.2	Unemployment rates by gender and region of origin, 1991–2004	13
1.3	Labour force participation rates by gender and region of origin, 1991–2004	14
1.4	Unemployment rates by gender and duration of residence, 1995 and 2000	15
1.5	Labour force participation rates by gender and duration of residence, 1995 and 2000	17
1.6	Unemployment rates by country or region of birth, 1991–2003	19
2.1	Labour force participation 18 months after migration, by gender and visa category	33
2.2	Unemployment rates 18 months after migration, by gender and visa category	33
2.3	Employment-to-population ratio 18 months after migration, by gender and visa category	34
3.1	Frequency of time to first job: Cohort 1	62
3.2	Frequency of time to first job: Cohort 2	62
3.3	Main source used to find (new) current job	63
3.4	Kaplan-Meier survival estimates by cohort	64
3.5	Kaplan-Meier survival estimates by cohort and gender	64
3.6	Kaplan-Meier survival estimates: Cohort 1 by major visa class	65
3.7	Kaplan-Meier survival estimates: Cohort 2 by major visa class	65
3.8	Inter-cohort simulated survival function: Men	78
3.9	Inter-cohort simulated survival function: Women	78
5.1	Standardised relationship between the probability of being proficient in English and educational attainment	136

7.1	Housing arrangements of migrants in Cohorts 1 and 2 at six and 18 months after arrival	182
7.2	Comparison of migrants' housing arrangements at Wave 1 and Wave 2	188
7.3	Percentage of migrants paying 40 per cent or more of income in housing costs, at six and 18 months after arrival, by visa category	195
