

Tables

4.1	Estimates of the natural rate of growth and its endogeneity for 15 OECD countries, 1961–1995	40
6.1	Cyclical amplitudes of GNP, M1 velocity and investment	67
6.2	Cycle relatives, average of four cycles, 1949–1970	72
6.3	Cycle relatives, average of five cycles, 1970–2001	73
7.1	Annual average unemployment rates, rates of consumer price inflation and productivity growth rates for 18 countries	86
8.1	Definitions of the variables used in the unemployment equation	108
8.2	Regression results for the unemployment equation	110
8.3	Definitions of the variables for the productivity growth equation	112
8.4	Regression results for the productivity growth equation	113
10.1	Productivity of foreign and local firms in the manufacturing sector and participation of foreign firms in total value added	144
10.2	Determinants of dependent variable convergence for the manufacturing sector	145
10.3	Determinants of dependent variable convergence for manufacturing industries	147
11.1	OLS and two-stage least squares groupwise heteroscedasticity estimates	158
11.2	ML and two-stage least squares estimates	159
13.1	Country abbreviations and country groups	207
13.2	Cross section: absolute and conditional β -convergence, 1994 to 2002	209
13.3	Panel data: absolute and conditional β -convergence rates and half-lives (years), 1994 to 2002	211
13.4	Conditional β -convergence: various time periods	212
13.5	Panel data: conditional β -convergence, estimates for clubs, 1994 to 2002	213
13.6	Estimates of $(1 + b)$ the speed of convergence (λ) and the half-life	215
13.7	Panel data unit root tests, 1994 to 2002	217
15.1	Growth in FDI in R&D in developing countries exceeds developed countries	242

15.2	Top ranked countries in terms of total tertiary students, and technical students	246
15.3	Potential human capital implications of FDI in R&D, for host developing countries	252
15.4	Investment and human capital in developing countries: R&D and tourism	256
16.1	Trend rates of rural poverty, GDP and capital formation in agriculture, 1951–1991	262
16.2	Trend rates of rural poverty, GDP and capital formation in agriculture during different policy regimes, 1951–1991	264
16.3	Correlation matrix	266
16.4	Pair-wise Granger Causality tests	266
16.5	ADF unit root test results	267
16.6	Testing for cointegration	268
17.1	Brazil – some macroeconomic data, 1991 to 2004	287
17.2	Productivity growth in Brazil, 1950 to 1997	294
