sanitary crises 72
sardines, trade description 181
satisfaction 142
scenario analysis 289
science 5, 7, 29, 33, 42–62, 95, 124, 127, 173, 208, 211, 264
decision making 8
environmental policy 55–9
epistemological problems 115
GMOs and 215
important role 44–5
innovative powers 160
lack of interdisciplinary approaches 55
limitations 53
ontological problems 115
political cover-ups 53–5
precautionary principles and 45–9
relationship to precautionary principle 42
risk assessment and 178, 284–315
slowing precautionary action 49–53
’sound science’ 3
technologies, new, and 280–81
traditional, and policy 53–5
transdisciplinary approaches 265
science-based decisions 39, 150, 169–71, 203, 289
science education 55
science fiction 276, 277
science for protection 179
science/policy interface 21, 36
scientific analysis 129
scientific burdens of proof 100
scientific certainty or not 137, 140, 225
scientific consistency 68
scientific controversy 21, 23, 28
scientific credibility 103
scientific data 125, 126, 156, 178
scientific development 69, 73, 93
scientific disciplines 99
scientific enquiries 49–53, 170
scientific evaluation 38, 39, 126, 211
scientific evidence 23, 139, 141, 166–71, 196
scientific information 30 34, 38, 144, 147, 198, 206
scientific innovation to protect the environment 75
scientific investigations 50
scientific judgements 213
scientific justification 163, 168–9
scientific knowledge 287
about risk 207
lack of certainty 28–34, 84
limited 204, 205
new 123
scientific material, evaluation 205
scientific methodologies 207
scientific methods, limitations in 52–3
scientific opinion 213
scientific requirements under GATT and TBTA 173–4
scientific research to protect the environment 75
scientific risk assessment 203
scientific standard 142
scientific terms of risk 143
scientific uncertainties 4–5, 9, 20, 23–4, 29–37, 65, 89, 92, 115, 119, 125–31, 161
and alternatives to asbestos 168
and decision making 154
and preventative action 228
as negative 53
as postponement 184
on climate change 245
on GMOs 202, 204
insufficient 193
lack of 151–2
threats and 294
scientific understanding, high level 189
