1.1	Policy and system linkages in the sustainable development of the pastoral region	6
1.2	Sources of growth and constraints to development in the pastoral region	11
1.3	Management of sustainable development in the pastoral region	13
2.1	Overview of key elements of effective management of grassland systems	17
3.1	Major State institutions in grassland management and inspection system	60
4.1	Policy and legislative environment for grasslands in China	86
4.2	Grassland Law legislative process	98
4.3	Setting of stocking rates and fines in grassland–livestock balance	106
5.1	Levels of specialization	137
6.1	Ruminant livestock feed systems in pastoral areas	162
6.2	Feeding systems and grazing restrictions	165
6.3	Ruminant livestock numbers in Inner Mongolia: 1947–2005	167
6.4	Percentage decrease in livestock numbers in Inner Mongolia between middle and end of year: 1978–2005	168
6.5	Percentage decrease in livestock numbers in Inner Mongolia from middle to end of year for cattle, sheep and goats: 2000–2005	169
6.6	Percentage decrease in sheep numbers by type in Inner Mongolia from middle to end of year: 2000–2005	169
6.7	Structure of beef cattle herd in Inner Mongolia: 2001–2005	170
6.8	Structure of goat flock in Inner Mongolia: 2001–2005	171
6.9	Livestock turnoff in Inner Mongolia as percentage of end of year numbers: 2001–2005	171
6.10	Cattle turnoff channels in Inner Mongolia: 2001–2005	173
6.11	Goat turnoff channels in Inner Mongolia: 2001–2005	173
6.12	Sheep turnoff channels in Inner Mongolia: 2001–2005	174
6.13	Livestock sheds and pens in Inner Mongolia: 2000–2005	176

7.1	Monthly sheep meat prices in Xinjiang: 1995–2005	201
7.2	Fine wool marketing in Xinjiang	221
8.1	Relationship between GDP per capita and primary industry proportion (PIP) of GDP for selected regions in Inner Mongolia	235
