---

3.1	Examples of social capital among organizations	62
4.1	Means, standard deviations and correlations	94
4.2	Results of complementary log-log regression analysis of firm dissolution	103
5.1	Means, standard deviations and correlations	130
5.2	Regression analyses of PA adoption	132
6.1	Multinomial logistic regression results for the consequences of M&As	159
7.1	Year of first founding of accounting firms among Dutch provinces	179
7.2	Means, standard deviations and correlations	180
7.3	Conditional fixed effects negative binomial regression models for the founding rate of Dutch accounting firms, 1880–1986	182
8.1	Descriptive statistics and pairwise correlations	202
8.2	Complementary log-log models for the failure rate of Dutch accounting firms, 1880–1986	206
9.1	Pairwise correlations	230
9.2	Complementary log-log models for the dissolution rate of Dutch accounting firms, 1880–1986	236
