About the authors

Dino Falaschetti (PhD, MBA, CPA) is a Campbell National Fellow at Stanford University's Hoover Institution, Associate Professor of Law and Economics at the Florida State University College of Law, and President of Economic Advisors, Inc. Dr Falaschetti has also served the Executive Office of the (US) President as a Senior Economist for the Council of Economic Advisers (with responsibilities for regulation and financial services), held academic appointments at Montana State University, University of California at Berkeley, University of Tennessee and Washington University in St Louis, and fulfilled managerial responsibilities in corporate finance and accounting for a *Fortune 100* company. He earned a PhD in economics from Washington University in St Louis (with fields in political economy, economic theory, and industrial organization), an MBA with highest honors from the University of Chicago (with concentrations in economics and finance), and a BS with distinction from Indiana University (with a major in accounting).

Michael Orlando (PhD, MBA) is Principal Consultant of Economic Advisors, Inc. in Denver, Colorado. Dr Orlando served in the Economic Research Department at the Federal Reserve Bank of Kansas City, and then as Vice President and Branch Executive of the Bank's Denver Branch. His primary responsibilities included regional and energy markets research, policy advising and public communication. Dr Orlando also served as Vice President for Research and Product Development at evolve24, LLC, a business analytics firm specializing in development and validation of algorithms used to produce quantitative measures of media content. He is also a practiced teacher, petroleum engineer and environmental engineer. Dr Orlando's research spans a range of topics in applied microeconomics. He has published work on the economics of payments networks, corporate governance, the geography and industrial demography of innovation, energy and environmental policy. Dr Orlando earned a PhD in economics from Washington University in St Louis (with fields in industrial organization and macroeconomics), an MBA from Tulane University, and a BS with high distinction from The Pennsylvania State University (with a major in petroleum and natural gas engineering).
