

# Index

---

- absorptive capacity 8, 11, 139, 145–6, 149, 154, 195–6, 203, 205, 216–17
- adoption of new technologies 149
- AEG 5, 45, 48–50, 55, 58
- agglomeration
  - agglomeration economies 3, 4, 6–7, 92, 135, 280–81
  - agglomeration forces 7, 112, 132–3
  - agglomeration and industrial structure 112
- anticipations 69
- bioRegio competition 52
- biotechnology 4–5, 25–6, 29, 41, 43–5, 51–7, 59, 60, 106, 151, 194, 196, 224, 233, 236
- bridging ties 176–7, 196
- Centre for the Development of Industrial technology (CDTI) 157
- circular causation 6, 92
- cities 14, 34, 48–50, 56, 84, 95, 106, 132, 134–5, 138, 143, 151–2, 157, 280–82, 286, 292, 293, 299, 300–302
- cluster
  - cluster analysis 160–62
  - cluster life cycle 84
- cognitive proximity 6, 65–8, 75–6, 81, 83–6, 216
- collective identity 74, 76, 78, 81, 82
- collective learning 67, 77, 85, 88, 194
- communicative skills 283, 285, 286, 301
- computer industry 54, 57, 104
- convergence
  - beta (or  $\beta$ ) convergence 251–4
  - conditional convergence 261–2, 266, 268, 270, 275
  - convergence clubs 13, 241–2, 245, 248–50, 253–4, 258–9, 263, 275–6
  - convergence equation 261, 265–6
  - sigma (or  $\sigma$ ) convergence 243, 245, 248
  - speed of convergence 14, 266, 268–9, 272, 278–9
- cooperation R&D 200, 205, 209, 215, 217, 232, 234
- coordination failures 6, 92, 103–4
- creation of value 180, 191, 196
- creative capital 282
- data envelopment analysis 9, 156, 169, 170, 173–4
- death of the distance 137, 151
- demand complementarities 92, 104, 106
- digital divide
  - global digital divide 8, 152
  - local digital divide 8, 138
- domain name registrations 140
- dyestuff industry 47, 56
- economic geography 4, 6–7, 19, 21, 23, 61, 69, 88–9, 92, 97, 104–5, 107, 111–16, 126, 133, 135
- education
  - primary 13, 242, 246, 251, 253
  - secondary 175, 246, 285
  - stocks of 242, 246, 249
  - tertiary 163, 242, 245–6, 249–51, 253–4, 257
- efficiency (of the innovative activities) 156, 170
- employment growth 280, 282, 293, 298–9, 300–301
- endogeneity 132, 217, 254, 262, 275
- endogenous growth theory 258, 280
- entrepreneurial spirit 10, 178
- entrepreneurship 29, 43, 48, 55, 57, 59, 194, 282
- epidemic models 136
- equilibrium models 8, 136

- Europe 2–3, 13–14, 39, 41, 44, 48, 53, 57–9, 61, 64, 93–5, 106–7, 119, 136–7, 150, 152–3, 194, 260, 270, 274, 276
- European patent office 167
- externalities
  - geographical scope externalities 115
  - Jacobs externalities 114, 126
  - knowledge externalities 3, 5, 7–8, 42–3, 55, 111–17, 121–3, 131–3, 281, 288, 302
  - MAR externalities 114
  - network externalities 72, 75, 77, 85, 89, 90, 107
  - pecuniary externalities 6–8, 92, 99, 104, 106, 111–18, 123, 126, 131–3
  - sectoral scope externalities 115
- factor analysis 9, 155–6, 158, 170, 282, 284
- faculty members 11–12, 198, 201–6, 208, 211, 214–17
- fashion leader 74
- firm-level databases 95
- firm managers 198, 199, 201, 203–5, 207, 209–11, 215, 216
- fixed costs 96, 98, 102–6
- flow 4, 21–3, 25, 29–30, 167, 179, 180, 182
- geography of innovation 39, 57–8, 63, 88, 112, 115, 123, 126, 131, 134
- growth 1–3, 6–7, 12–15, 32, 39, 41, 56, 59, 62, 72, 75, 77, 84, 87, 92–9, 100, 104–7, 111–14, 126, 134–5, 137, 150–52, 170, 192, 219, 238, 241–3, 245, 251–76, 278–84, 287–303
- growth accounting exercises 93
- high technology 5, 55, 88, 134, 159, 194
- human capital
  - accumulation rate 260–61, 271
  - level 248, 256
- IAIF index of regional innovation 9, 156, 162–6, 170, 172
- increasing returns 27, 28, 43, 59, 71, 72, 76, 85, 87–8, 92, 98, 106, 135, 303
- industry
  - industrial district 10, 62, 88, 176, 178–9, 182, 190–91, 193, 195–6
  - industrial structure 6, 7, 92–3, 112, 114–15, 126, 132, 134, 183
- information and communications technologies (ICTs)
  - ICTs adoption 136, 138–40, 142–3, 145–6, 148–51
  - ICT cluster 62, 77, 79, 85, 89
- information technology (IT)
  - IT adoption 6, 92, 95–6, 104–5
  - IT clusters 107
  - IT intermediate inputs 6, 96, 98–9
  - IT producing sectors 6, 92, 94–5, 104–5
  - IT using sectors 94
- informational cascade 69, 71, 73, 80, 85, 87–8
- infrastructure for innovation 156–7
- innovation
  - innovation geography 39, 57–8, 63, 88, 112, 115, 123, 126, 131, 134
  - innovation diffusion 136
  - innovation system 2–4, 19, 24–30, 32–4, 36–40, 57, 88, 155–62, 165–9
  - organizational innovation 5, 34, 36, 44, 46–7, 49–52, 55, 57, 139
- innovative capacity 11, 162, 168, 173, 192
- interaction 1, 4–6, 10–14, 20–21, 24–5, 29, 31–2, 34–5, 37, 61–4, 66, 68–78, 80–81, 83–8, 111–12, 131, 167–8, 171, 176–81, 183–4, 187–90, 198–9, 201–3, 206–7, 209, 211, 214–18, 231, 261–4, 266–7, 271–4, 278, 300
- internet domain names 140
- inverted U-shaped 10, 181–2, 186, 188, 189, 190
- knowledge
  - acquisition 13, 197
  - economy 280–85, 298–302
  - externalities 3, 5, 7–8, 42–3, 55, 111–17, 121, 123, 131–3, 281, 288, 302
  - production function 9, 126, 133, 156, 166

- spillovers 3–5, 7, 27–8, 42–52, 54–9, 61, 88, 112, 115, 126, 133–5, 149, 200, 263, 280–81, 302–3
- workers 283, 285–7, 198–301, 303
- labour market 3, 7, 8, 100, 118, 126, 131–3, 262
- learning 19–24, 29–31, 33–4, 36–8, 40, 49–50, 54, 57–9, 69, 71–3, 77, 80, 85, 88, 139, 151, 157, 173, 181, 191, 194–6, 201, 218, 220
- legitimacy 5–6, 62, 70, 72–8, 81, 83–4, 86–7
- local institutions 10–11, 178–9, 182–3, 185–92
- location economies 120–23
- locational
  - locational norm 62, 86
  - locational cascade 76, 84
- main components 158
- managerial position 11, 203, 209, 211, 214–6
- maximum likelihood 249, 277, 298
- mimetic interactions 6, 69, 71–6, 78, 80, 84–6
- monopolistic competition 69, 98, 100, 105–6, 114
- multiple equilibria 93, 101
- Nelson and Phelps approach 255–6
- network externalities 72, 75, 77, 85, 89–90, 107
