rationale for statistical testing 131–2
recording and evaluating journal entries 112–13
results 115–20
technically trained employees 118–20, 121–2, 130–31
treatment group instructions for using consideration sets 113–14
instructions for using constrained, systematic search 111–12
wealth-generating ideas 106–7
working poor 117–18
theory 21–51, 139–40, 269
tit-for-tat strategy 186, 217, 269
total effects 158, 269
trade association conferences/trade shows 65–6
training instructions, searching 246–50
trials
heterogeneity among 135–6
multiple, theoretical implications 208–9
new evidence 205–9
trial-level estimates 132
uncertainty 165, 211, 212
environmental 151–2, 161
validity, research design 73
value defined 269
FVRI (fit, value, rarity and inimitability) framework 82, 83–4, 91, 199–200, 201
wealth-generating ideas 107
variable oriented strategies 62
venture ideas
decisions as to search 237–8
framework for evaluating 79–90
high-potential, characteristics 78
search assumptions, efficiency-based 194
searching for 22, 31
submission instructions 263–4
WCP (wealth creating potential of a venture idea) 91, 201
wealth creation
computational algorithm 91, 92, 93, 200–202
developing theory of 76–7
entrepreneurial criteria and contingency rules 80–81
entrepreneurs and investors 97
fit 199
framework for evaluating venture ideas see FVRI (fit, value, rarity and inimitability) framework
high-potential venture ideas, characteristics 78
information channels 28
inimitability 200
Index

moderators 85–6
public policy analysts 97
rarity 200
scholars 97–9
value 83–4, 199–200
wealth-generating ideas 106–7

Williamson, O. 183
window of opportunity 31, 175, 180, 269
working poor 108, 117–18, 129–30

Yin, R. K. 61
